

## Washington Suburban Sanitary Commission Pricing Policy Consideration Prioritization Worksheet

Please classify, by marking the appropriate box, each of the eight pricing policy considerations as one of the following: "Essential", "Very Important", or "Important". In recognition of the fact that it would not provide for appropriate prioritization if all of the considerations are classified as Essential or Very Important, **you may only classify a maximum of three considerations each as Essential or Very Important**. You may classify as many considerations as you wish as Important. Note that the sheet has three blank rows where you can insert additional policy considerations that you believe should be addressed.

Considerations	Essential	Very Important	Important
<b>Affordability</b>			
<b>Conservation/Demand Management</b>			
<b>Cost Based Rates</b>			
<b>Ease of Implementation</b>			
<b>Ease of Understanding</b>			
<b>Minimize Customer Impacts</b>			
<b>Rate Stability</b>			
<b>Revenue Stability</b>
