OTHER REPORTS

ENGINEERING & CONSTRUCTION

Resolution 2019-2209 - Adoption of Revisions to 2018 Development
Services Code. Theon Grojean, Acting Chief Engineer, provided a
short briefing on the proposed revisions to three chapters of the
Development Services Code ("DSC") prior to requesting Commission
approval. Commissioners were briefed on the changes in greater
detail at the December 2018 Commission Meeting.

In summary, the DSC is a consolidated regulation manual pertaining
to the planning, design and construction of WSSC water and sewer
systems. Chapters 5 (System Extension Process), 7 (Site Utility
Systems) and 11 (Service Connections), were modified with new language added or existing text deleted.

The new language added to Chapters 5 and 7 specifically addresses changes made to satisfy requirements of the recently passed State legislation, House Bill 218 (master meter prohibition), which became effective June 1, 2018. The required changes cover: 1) Individually metering residential multiple occupancy buildings constructed or existing ones being converted to condominiums; and 2) Co-operative ownership, in Prince George’s County. House Bill 218 no longer allows WSSC to authorize a master meter to serve these property types for billing purposes.

Additionally, Sections 1106.1 through 1106.6 of the DSC are being removed because the identical information already exists in the Plumbing Fuel and Gas Code under Sections 111.1 through 111.6.

Following discussion, a motion was made by Commissioner Bayonet and seconded by Commissioner Boulware, to adopt Resolution 2019-2209, approving certain revisions to the 2018 WSSC Development Services Code under the WSSC Code of Regulations, as specified and recommended by management in the respective meeting materials, to be effective March 1, 2019.

The motion carried unanimously with six affirmative votes.

Resolution 2019-2210 – Adoption of Revisions to 2018 Plumbing and Fuel Gas Code. Next, Mr. Grojean provided a short overview of the
revisions proposed for the 2018 WSSC Plumbing & Fuel Gas ("P&FG") Code. Such revisions were discussed in greater detail at the December 2018 Commission Meeting and are being made to also satisfy requirements of the recently passed State House Bill 218, which went into effect June 1, 2018.

As noted previously, House Bill 218 no longer allows WSSC to authorize a master meter to serve residential, condominium buildings in Prince George’s County for billing purposes. The modifications to the P&FG Code include sections related to metering and fire protection piping. Staff is also recommending a few other modifications to enhance the Code.

Following discussion, a motion was made by Commissioner Boulware and seconded by Commissioner Bayonet, to adopt Resolution 2019-2210, approving certain revisions to the 2018 WSSC Plumbing and Fuel Gas Code under the WSSC Code of Regulations, as specified, and recommended by management in the respective meeting materials, to be effective March 1, 2019.

The motion carried unanimously with six affirmative votes.

Whereby, a motion was made by Commissioner Boulware and seconded by Commissioner Bayonet, to approve Resolution 2019-2211, adopting amendments to provisions of the Ethics Regulations under the WSSC Code of Regulations, as specified, and recommended by management in the respective meeting materials, to be effective March 1, 2019.

Chris Haynes, Local Certified Plumber/Minority Business Owner, who operates his own plumbing company, Haynes Plumbing, in Prince George’s County, and Ralph E. Moultrie, WSSC/HomeServe Customer, shared their positive experiences with HomeServe, one as a plumber who is part of the contracted group of HomeServe plumbers that provide plumbing services under the HomeServe insurance plans, and the other as an extremely satisfied HomeServe customer from Prince George’s County, who has the insurance plan and has received related plumbing services through the HomeServe plan and Haynes Plumbing.

Following the public comments, Ms. Knight-Lee provided a follow-up briefing, addressing Commissioner questions about the HomeServe partnership and agreement, raised during the December 2018 Commission Meeting. Ms. Knight-Lee reported from a Memorandum to Commissioners contained in the advance materials and incorporated herein by reference.
