#### INDEPENDENT AUDITORS' REPORT

The Commissioners and Board of Trustees Washington Suburban Sanitary Commission Employees' Retirement Plan

#### **Report on the Financial Statements**

We have audited the accompanying Statement of Fiduciary Net Position of the Washington Suburban Sanitary Commission's Employees' Retirement Plan (the Plan), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Plan as of December 31, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

Adjustments to Prior Period Financial Statements

The financial statements of the Plan as of December 31, 2017, were audited by other auditors whose report dated August 8, 2017, expressed an unmodified opinion on those financial statements. As discussed in Note 5 to the financial statements, the Plan has adjusted its 2016 financial statements to correct an accounting error. The other auditors reported on the financial statements before the retrospective adjustment.

The Commissioners and Board of Trustees Washington Suburban Sanitary Commission

As part of our audit of the 2017 financial statements, we also audited the adjustments to the 2016 financial statements to retrospectively correct the accounting error as described in Note 5. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the Plan's 2016 financial statements other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2016 financial statements as a whole.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (MD&A), the schedule of changes in net pension liability and related ratios, the schedule of employer contributions, and the schedule of investment returns as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Plan's basic financial statements. The Schedule of Investments is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Investments is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Investments is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2018, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Clifton Larson Allen LLP

Baltimore, Maryland October 15, 2018

The Washington Suburban Sanitary Commission Employees' Retirement Plan (the "Plan") provides retirement benefits to the employees, retirees, and beneficiaries of the Washington Suburban Sanitary Commission. To facilitate understanding the Plan's financial performance for the years ended December 31, 2017 and 2016, management has prepared this discussion and analysis. The following discussion and analysis should be read in conjunction with the Plan's financial statements and supplementary information provided in this report.

#### OVERVIEW OF THE FINANCIAL STATEMENTS AND SCHEDULES

The financial information presented in this report includes two financial statements, the notes to the financial statements, required supplementary information and other supplementary information.

The Statements of Fiduciary Net Position show the amount of assets and deferred outflow of resources, liabilities and deferred inflow of resources, and net position held in trust for pension beneficiaries as of the end of the current and prior calendar years.

The Statements of Changes in Fiduciary Net Position show the additions to, and reductions in, the Plan's net position during the current and prior fiscal years. The statements present the major sources and uses of funds.

The Notes to Financial Statements contain disclosures and discussions which support the data presented in the financial statements. The notes present information about the creation and administration of the Plan, significant accounting policies and investments. The notes are an integral part of the financial statements and should be considered in conjunction with any review of the financial statements.

The Required Supplementary Information and Supplementary Information includes additional information on the Plan's financial condition and trends, including information on changes in the net pension liability and related ratios, contributions, actuarial assumptions, investment returns, investments and actuarial assumptions.

#### FINANCIAL HIGHLIGHTS

# Fiscal Year 2017

- As of December 31, 2017, the Plan's net position held in trust for current and future retirement benefits were \$833.8 million. This reflects an increase in the Plan's net position of \$89 million from the prior year.
- The net investment gain was \$118.2 million for fiscal year 2017. This was comprised of \$106.0 million net appreciation in the fair market value of investments, \$14.9 million in dividends and interest income, and investment expenses of \$2.7 million. For fiscal year 2016, the net investment income was \$61.9 million. The 2017 increase reflects the

continued bull market for global equities; in particular, international and emerging markets.

• The total investment return for 2017 was 16.2%. For the period ended December 31, 2017, the Plan returned 9.3% per annum over the past five years and 5.5% annualized over the past ten years.

### Fiscal Year 2016

- As of December 31, 2016, the Plan's net position held in trust for current and future retirement benefits were \$744.8 million. This reflects an increase in the Plan's net position of \$31.1 million from the prior year.
- The net investment gain was \$61.9 million for fiscal year 2016. This was comprised of \$52.2 million net appreciation in the fair market value of investments, \$12.0 million in dividends and interest income, and investment expenses of \$2.3 million. For fiscal year 2015, the net investment loss was \$10.4 million. The 2016 increase reflects the continued recovery in the financial markets; in particular, international and emerging markets.
- The total investment returns for 2016 was 9.3%. For the period ended December 31, 2016, the Plan returned 8.8% per annum over the past five years and 4.7% annualized over the past ten years.

#### FINANCIAL ANALYSIS

# Fiscal Year 2017

The Plan's cash, cash equivalents and investments for fiscal year 2017 increased by \$85.4 million or 9.9%. The increase was due primarily to investment gains of \$118.2 million, contributions totaling \$29.5 million, offsetting benefit payments and refunds of \$58.6 million, and a decrease in the value of collateral received under securities lending agreements of \$2.8 million.

As shown in Table 2a - Investments by Manager/Advisor with Rates of Returns as of December 31, 2017, a significant portion of the Plan's investments were managed by Vanguard (34.7%), JP Morgan Asset Management (9.4%), and Morgan Stanley Asset Management (9.1%),. For the year ended December 31, 2017, all but one managers/advisors reflected a positive return for funds under management. Overall, the weighted average annual rate of return was 16.2% which contributed to an increase in investment income by 47.67% to \$118.2 million.

Table 2a - Investments by Manager/Advisor with Rates of Returns as of December 31, 2017

	Investment Value	Percentage of Total Assets	Average Annual Rate of Return %
CastleArk Management	\$ 46,114,937	5.5%	31.9
Northern Trust Asset Management	60,013,791	7.2%	4.0
Income Research + Management	28,240,028	3.4%	3.1
State Street Global Advisors	 35,424,143	4.3%	21.2
	 169,792,899		
Prudential Retirement Insurance and Annuity Company	47,909,075	5.8%	3.0
Vanguard	289,015,395	34.7%	37.0
Morgan Stanley Asset Management	75,720,617	9.1%	25.4
Dimensional Fund Advisors	39,901,471	4.8%	33.8
Investment Counselors of Maryland	65,257,433	7.8%	13.1
JP Morgan Asset Management	78,288,752	9.4%	22.6
Wellington Trust Company	 66,664,310	8.0%	17.8
	\$ 832,549,952	100.0%	

During the year, the Board of Trustees met regularly to monitor investment manager performance. During calendar year 2017, Board actions included:

- Paying annuity payments throughout the first ten months of the year from the State Street Russell 1000 Value Index holdings to correct an over-weight in the Domestic Equity space.
- Terminating Global Real Estate manager VOYA Clarion in May and using the proceeds, along with a partial liquidation from the State Street account to fund indexed real estate holdings with Vanguard.

Receivables for fiscal year 2017 increased by \$0.3 million or 34.2% due to an increase in dividend and accrued interest receivable.

Total liabilities decreased by \$3.3 million or 9.7%. This is due primarily to a decrease in payables for collaterals received under securities lending agreements which decreased from \$35.9 million in 2016 to \$33.1 million in 2017 or 8.5%.

### Fiscal Year 2016

The Plan's cash, cash equivalents and investments for fiscal year 2016 increase by \$38.5 million or 5.2%. The increase was due primarily to investment gain of \$61.9 million, contributions totaling \$26.8 million, offsetting benefit payments and refunds of \$57.6 million, and an increase in the value of collateral received under securities lending agreements of \$7.1 million.

As shown in Table 2b - Investments by Manager/Advisor with Rates of Returns as of December 31, 2016, a significant portion of the Plan's investments were managed by Vanguard (28.0%), State Street Global Advisors (12.2%) and JP Morgan Asset Management (8.7%). For the year ended December 31, 2016, all but one managers/advisors reflected a positive return for funds under management. Overall, the weighted average annual rate of return was 14.1% which contributed to an increase in investment income by 696.3% to \$61.9 million.

Table 2b - Investments by Manager/Advisor with Rates of Returns as of December 31, 2016

	Investment Value	Percentage of Total Assets	Average Annual Rate of Return %
CastleArk Management	\$ 34,169,705	4.7%	7.9
Time Square CIGNA Investments	50,055,282	6.8%	2.8
Income Research + Management	27,354,801	3.7%	4.6

Dimensional Fund Advisors	29,829,987	4.1%	19.8
Investment Counselors of Maryland	57,681,752	7.9%	31.4
JP Morgan Asset Management	63,851,940	8.7%	8.8
Wellington Trust Company	56,576,893	7.7%	6.1
Voya Clarion Global Real Estate	26,255,097	3.6%	0.7
	\$ 731,924,715	100.0%	

During calendar year 2016, Board actions included:

- Paying annuity payments for the final three quarters of the year from its stable-value guaranteed deposit account with Prudential after liquidating a portion of CastleArk holdings in the first quarter.
- Terminating Global Tactical manager BlackRock and re-allocating funds to Vanguard Total Stock & High-Yield Funds, and the Prudential GDA after revising the Global Tactical target from 15% to 10% in the Investment Policy.
- Voting to address the projected year-end domestic equity overweight by funding annuity payments from the State Street Russell 1000 Value Index holdings.

Receivables for fiscal year 2016 decreased by \$0.2 million or 20.7% due to a decrease in dividend and accrued interest receivable.

Total liabilities increased by \$7.2 million or 24.1%. This is due primarily to an increase in payables for collaterals received under securities lending agreements which increased from \$28.9 million in 2015 to \$35.9 million in 2016 or 24.5%.

#### Fiscal Year 2017

Net investment income comprised of interest and dividends was and appreciation/depreciation in the fair value of investments less investment expenses. Interest and dividends increased, from \$12.0 million in 2016, to \$14.9 million in 2017. The financial markets reflected favorable conditions during the year and, accordingly, net appreciation in the fair value of the investments was \$106 million for 2017, compared to net appreciation of \$52.2 million for fiscal year 2016. The increase in net investment income was primarily due to most of the Plan's funds reflecting positive rates of return. The Plan had an overall weighted average rate of return of 16.2% for fiscal year 2017.

Investment expenses increased by \$0.3 million or 13.9%. Investment expenses represent approximately 0.32% or 32 basis points of average net position.

Participant and Plan sponsor contributions increased in 2017 to \$29.4 million from \$26.8 million in 2016 due to an increase in the number of employees and higher salary levels. Retirement annuity benefit payments totaled \$58.7 million. This represented an increase of \$1.1 million over 2016, which is due to an increase in cost-of-living and the number of retirees.

# Fiscal Year 2016

Net investment income was comprised of interest and dividends and net appreciation/depreciation in the fair value of investments less investment expenses. Interest and dividends decreased, from \$12.5 million in 2015, to \$12.0 million in 2016. The financial markets reflected favorable conditions during the year and, accordingly, there was a net appreciation in the fair value of the investments of \$52.2 million for 2016, compared to a net depreciation of \$20.6 million for fiscal year 2015. The increase in net investment income was primarily due to most of the Plan's funds reflecting positive rates of return. The Plan had an overall weighted average rate of return of 9.5% for fiscal year 2016.

Investment expenses increased by \$0.06 million or 2.6%. Investment expenses represent approximately 0.33% or 33 basis points of average net position.

Participant and Plan sponsor contributions increased in 2016 to \$26.8 million from \$25.6 million in 2015 due to an increase in the number of employees and higher salary levels. Retirement annuity benefit payments, excluding refunds, totaled \$57.1 million. This represented an increase of \$1.0 million over 2015, which is due to an increase in cost-of-living and the number of retirees.

#### PLAN FUNDING

#### Fiscal Year 2017

On an annual or biennial basis, the market value of the Plan's assets and its investment gains and losses are reviewed by the Plan's actuary to determine the viability and funding progress of the Plan, the latest of which was performed effective June 30, 2017. The Plan's actuarially determined target rate of investment return is 7.0% net of expenses, reflecting the most recent Assumption Study, which also updated assumptions concerning mortality, inflation, and salary scale.

The Plan began using the average value method to determine actuarial asset value effective July 1, 2007. This smoothing method explicitly recognizes each year's investment gain or loss over a five-year period with the final actuarial value not less than 80% or more than 120% of the market value of assets.

#### NOTE A. DESCRIPTION OF PLAN

#### General

The Washington Suburban Sanitary Commission ("WSSC") Employees' Retirement Plan (the Plan), a single employer contributory defined benefit retirement plan, was established in 1967 to provide retirement and death benefits for the employees of WSSC under conditions set forth in the Plan Document based on an employee's age, length of service and compensation. The Retirement Plan Document is amended from time to time. As of December 31, 2017, the Plan was last amended in January 2016. The Plan may be amended by Commission resolution or by the Executive Director on behalf of the Commission.

WSSC implemented the Open Version of the Plan on July 1, 1978. Members of the Plan as of June 30, 1978 had an option to be included in the Open Version. This option expired December 31, 1978. The Open Version is mandatory for new employees. It generally provides for reduced employee contributions and benefits.

As of December 31, 2017, and 2016, there were 1,616 and 1624 employees, respectively, participating in the Open Version of the Plan, and 7 and 7 employees, respectively, participating in the Closed Version of the Plan, a total of 1,623 and 1,631 employee participants, respectively.

As of December 31, 2017, and 2016, there were 1,600 and 1,585 retirees and/or beneficiaries, respectively, receiving benefits from the Plan, and there were 105 and 100 terminated vested employees, respectively, not yet receiving benefits. Sixteen and Six employees retired in fiscal years 2017 and 2016, respectively, and began receiving benefits in subsequent fiscal years.

The Plan provides a review process for participants whose claim for benefits have been denied. There were no reviews pending as of December 31, 2017 and 2016.

#### **Contributions**

The Plan requires employees under the Closed Version to contribute 6% of gross wages and employees under the Open Version to contribute 3% of gross wages as a condition of employment. WSSC contributions are determined through the budget process as recommended by the Executive Director annually based upon a level percentage of payroll costs based on the advice and recommendation of an Actuary based on generally accepted actuarial principles.

# NOTE A. DESCRIPTION OF PLAN (Continued)

#### **Expenses**

WSSC pays the administrative expenses of the Plan, other than investment management and consulting fees.

#### Pension Benefits

The Plan provides for 100% vesting of retirement benefits after five years of credited service.

Generally, the normal retirement benefits payable to an eligible participant are equal to the sum of:

- 1. 2.1% of final average monthly compensation multiplied by the Closed Version credited service, plus
- 2. 1.4% of final average monthly compensation multiplied by the Open Version credited service where the sum of Closed Version credited service and Open Version credited service, exclusive of accumulated sick leave service is subject to a maximum of 36 years.

The Plan provides options for disability and early retirement to eligible participants or their surviving spouses.

The Plan provides for periodic cost of living increases to retirement benefits. Participants covered by the Closed Version will receive some increase two months following a sustained increase in the Consumer Price Index of 3% or more. Participants in the Open Version receive an increase each March 1, based on the preceding calendar year's increase in the Consumer Price Index. The first increase may be pro-rated depending on the time of retirement.

#### Plan Termination

In the event of termination, Plan assets are to be allocated in the following priorities:

- 1. Expenses, fees and other charges under the Plan, not previously paid.
- 2. Pension benefits based upon contributions made by employees and interest earned thereon.
- 3. Pension benefits based upon contributions made by the employer which are vested.
- 4. All other pension benefits under the Plan.

### NOTE A. DESCRIPTION OF PLAN (Continued)

#### Plan Governance

WSSC established a Board of Trustees (the "Board") for the Plan to be responsible for the investment management of the Plan's assets for the exclusive benefit of the Plan's participants. The trustees are governed by a Trust Agreement. The agreement provides for trustees to be appointed by WSSC and for the eleven-member Board to be composed of two Commissioners, four employees who are participants of the Plan, two representatives of the public, two retirees who are participants in the Plan, and the Executive Director of the Plan.

The administration of the Plan is managed by the Executive Director of the WSSC Employee Retirement Plan who is appointed by the General Manager of WSSC.

#### NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting, under which expenses are recorded when the liability is incurred and revenues are recorded in the accounting period in which they are earned and become measurable.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### Cash and Cash Equivalents

The Plan considers all cash and highly liquid investments with an original maturity of three months or less to be cash and cash equivalents.

#### Investments

The Plan categorizes fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurement and Application*. The valuation technique uses a three-level hierarchy of inputs to measure the fair value of the asset and gives the highest priority to unadjusted quoted prices in active markets (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

### NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

These classifications are summarized as follows:

- Level 1 Inputs: Quoted prices (unadjusted) for identical assets or liabilities in active markets that a reporting entity can access at the measurement date.
- Level 2 Inputs: Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3 Inputs: Unobservable inputs for an asset or liability.

Fair value of certain investments that do not have a readily determinable fair value is established using net asset value (or its equivalent) as a practical expedient. These investments are not categorized according to the fair value hierarchy.

The Plan holds investment contracts with Prudential Financial. The fair value of these contracts is determined based on the fair value of the underlying pooled assets, and is an estimate only and not the result of a precise calculation which would be done at contract discontinuance or to measure the impact of excess withdrawals in any calendar year. It does not constitute an offer by Prudential Financial or a final experience adjustment.

Net appreciation in the fair value of investments reflected in the Statements of Changes in Fiduciary Net Position includes realized gains and losses on investments that were sold during the year and unrealized appreciation in the fair value of investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

#### NOTE C. TAX STATUS

The Plan obtained its latest determination letter dated April 26, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code; therefore, the Plan was qualified, and the related Trust was tax exempt as of December 31, 2017 and 2016.

#### NOTE D. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consisted of short term investments funds of \$1,471,580 and \$13,859,933 as of December 31, 2017 and 2016, respectively.

#### NOTE E. SECURITIES LENDING

The Board of Trustees permits the Plan to lend its securities to broker-dealers and other entities (the "Borrowers") for collateral that will be returned for the same securities in the future. The Plan's custodian is the agent in lending the Plan's securities for collateral of 102 percent for domestic securities and 105 percent for international securities. The custodian receives cash, securities or irrevocable bank letters of credit as collateral.

All securities loans can be terminated on demand by either the Plan or the Borrowers. Cash collateral received from the Borrowers is invested by the lending agent, as an agent for the Plan, in a short-term investment pool in the name of the Plan, with guidelines approved by the Board. Such investments are considered a collateralized investment pool. The relationship between the maturities of the investment pool and the Plan's loans is affected by the maturities of securities loans made by other plan entities that invest cash collateral in the investment pool, and which the Plan cannot determine. The Plan records a liability for the return of the cash collateral shown as collateral held for securities lending in the Statements of Plan Net Position. The Board does not restrict the amount of loans the lending agent may make on its behalf. The agent indemnifies the Plan by agreeing to purchase replacement securities, or return the cash collateral thereof, in the event a Borrower fails to return loaned securities or pay distributions thereon.

As of December 31, 2017, and 2016, the fair value of securities on loan was \$32,356,215 and \$35,110,949, respectively. Cash received as collateral and the related liability was \$33,118,532 and \$35,924,584 as of December 31, 2017 and 2016 are shown on the Statements of Fiduciary Net Position. Securities received as collateral are not reported as assets since the Plan does not have the ability to pledge or sell the collateral securities.

Securities lending revenues and expenses amounted to \$511,235 and \$418,162, respectively, for December 31, 2017 and \$281,517 and \$181,180, respectively, for December 31, 2016, have been classified with investment income and investment expenses, respectively, in the accompanying financial statements.

# NOTE E. SECURITIES LENDING (Continued)

The following represents the balances relating to the securities lending transactions as of December 31:

	2	017	2016		
	Fair Value of	Fair Value of Cash Collateral		Cash Collateral	
	Underlying Investment		Underlying	Investment	
	Securities	Value	Securities	Value	
Securities Loaned for Cash Collateral					
Corporate Bonds	\$ 3,838,278	\$ 3,938,325	\$ 4,100,831	\$ 4,207,068	
Common Stock	5,162,846	5,298,452	8,451,548	8,684,877	
U.S. Government & Agency Bonds	23,355,092	23,881,755	22,558,570	23,032,639	
Total	\$ 32,356,216	\$ 33,118,532	\$ 35,110,949	\$ 35,924,584	

At year-end, the Plan has credit risk exposure to Borrowers because the amount the Plan owes the Borrowers is less than the amounts the Borrowers owe the Plan. The Plan is fully indemnified by its custodial bank against any losses incurred as a result of Borrower default.

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2016 and 2015, there were no funds held by a counterparty that was acting as the Plan's agent in securities lending transactions.

#### NOTE F. INVESTMENTS

#### **Investment Policy**

The Plan's investment policy and any changes to the policy are adopted by the Board of Trustees of the Plan. The most recent version of the policy was approved in April 2017 and contains long-term asset allocation ranges.

The primary objective of the investment policy is to assure that assets will be available to pay retirement benefits throughout the life of the Plan and to maintain or improve the market value of the fund relative to vested and accrued benefit liabilities. The objectives seek to preserve the actuarial soundness of the Plan by achieving a long-term return of at least the actuarial return rate and to prudently manage the inherent investment risks that are related to the achievement of this goal.

Long-term asset allocation ranges are developed based on several factors including: the long-term investment goals of the Plan; the Trustee's tolerance for short-term losses; the Plan's liquidity needs; and any legal or regulatory requirements.

# NOTE F. INVESTMENTS (Continued)

The Plan has a rebalancing policy, which allows the Executive Director and staff the flexibility to adjust assets classes for purposes of rebalancing without approval from the Board of Trustees

As of December 31, 2017, and 2016, the Plan's long-term asset allocation ranges were as follows:

	20	17	201	16
	Target	Range	Target	Range
U.S. Stocks	40%	35-45%	40%	35-45%
Non-U.S. Stocks	12%	9 - 15%	12%	9 - 15%
Emerging Markets Stocks	5%	2 - 8%	5%	2 - 8%
Global Tactical Asset Allocation	10%	6-14%	10%	6-14%
Total equity	67%		67%	
Fixed Income	23%	19-27%	23%	19-27%
Real Return Strategies	5%	0 - 10%	5%	0 - 10%
Real Estate	5%	0 - 10%	5%	0 - 10%
Total	100%		100%	

#### Money-Weighted Rate of Return

For the years ended December 31, 2017 and 2016, respectively, the annual money-weighted rate of return on Plan investments, net of investment expense, was 16.2% and 9.5%, respectively. The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investments by the proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the end of each month. External cash inflows are netted with external cash outflows, resulting in a net external cash flow in each month. The money-weighted rate of return is calculated net of investment expenses.

# **NOTE F. INVESTMENTS (Continued)**

The Plan has the following fair value measurement as of December 31, 2017 and 2016:

### **NOTE F. INVESTMENTS (Continued)**

Common stock and mutual funds classified in Level 1 of the fair value hierarchy are valued utilizing prices last quoted sales/bid prices provided by independent pricing vendors. U.S. government and agency securities, municipal and corporate bonds, and mutual funds classified in Level 2 of the fair value hierarchy are valued utilizing a matrix pricing technique. Matrix pricing is utilized to value securities based on the securities' relationship to benchmark quoted prices.

Commingled funds consist of investments in four investment trusts, the objectives of these fund are to invest in a diversified portfolio of international equity securities for capital appreciation, approximate the performance of the Russell 1000 Value Index, and investing in a portfolio of equity securities of companies in developed and emerging markets. These investments are valued at the net asset value (NAV) of units of the commingled trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

As of December 31, 2016, the Plan invested in the Voya Clarion Global Real Estate Securities Trust Fund, which is valued using quoted market prices on the last business day of the Plan's year end.

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) as of December 31, 2017 and 2016 is presented on the following tables:

	December 31, 2017

#### Risks Common to Investments

The Plan's investments are subject to the following risks common to investments:

• Custodial Credit Risk is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan, and are held by either the counterparty or the counterparty's trust department or agent but not in the Plan's name.

The Plan's investments for fiscal year 2017 and 2016 are partially insured and registered in the Plan's name and are generally segregated by the counterparty in a manner to protect them from certain claims by creditors. The Plan also invests in mutual and commingled trust funds which are not generally exposed to custodial credit risks.

• *Credit Risk* is the risk that an issuer to an investment will not fulfill its obligations. The Plan seeks to maintain a diversified portfolio of fixed income securities in order to obtain the highest total return at an acceptable level of risk. As of December 31, 2017, and 2016, the quality ratings of the Plan's fixed income investments in U.S. Government obligations and corporate bonds were as follows:

	20	17	2016		
Fiscal Year 2017 Quality Rating	Fair Value	Percentage of Total	Fair Value	Percentage of Total	
U.S. Government and Agency Bonds:					
AAA/AA+	\$ 59,308,356	67.04%	50,955,001	65.86%	
BBB+	233,200	0.26%	-	0.00%	
Total U.S. Government and Agency Bonds	59,541,556	67.30%	50,955,001	65.86%

### **NOTE F. INVESTMENTS (Continued)**

Certain mutual and/or commingled funds of the Plan, such as, the Vanguard High Yield Corporate (Vanguard) and Wellington OIA (Wellington) funds contain investments that include fixed income securities. As of December 31, 2017 and 2016, the ratings of the underlying securities of the Vanguard fund were AAA/BBB/BB/Below B. Ratings were unavailable for the underlying securities of the Wellington fund. The other mutual funds, which were equity-based, and the investment contracts were unrated.

• Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair values of the Plan's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the Plan's fixed income investments by maturity:

Fiscal Year 2017										
					Re	maining Matur	ities	(In Months)		
Investment Type	Total			12 Months Or Less		13 to 24 Months		25 - 60 Months		ore Than 60 Months
U.S. Government and Agency bonds: Mortgage-backed securities U.S. Treasury Notes Corporate bonds	\$	17,494,358 42,047,198 28,929,629 88,471,185	\$	1,931,285 339,500 2,270,785	\$	223,428 1,391,771 1,534,658 3,149,857	\$	1,774,627 14,112,769 4,023,919 19,911,315	\$	15,496,303 24,611,373 23,031,552 63,139,228
		Fi	scal Y	ear 2016						
					Re	maining Matur	ities	(In Months)		
Investment Type		Total	12	12 Months Or Less 13 to 24 Months		25	- 60 Months	M	ore Than 60 Months	
U.S. Government and Agency bonds: Mortgage-backed securities U.S. Treasury Notes Corporate bonds	\$	19,965,742 30,989,259 26,411,967 77,366,968	\$	182,355 - 455,277 637,632	\$	989 4,085,080 660,165 4,746,234	\$	6,297,239 9,767,420 3,988,496 20,053,155	\$	13,485,159 17,136,759 21,308,029 51,929,947

The mortgage-back securities listed above are considered highly sensitive to interest rate risk.

• Foreign Currency Risk is the risk that changes in exchange rates will adversely affect the fair value of an investment in a foreign financial institution. The Plan mitigates this risk by limiting its investments in non-U.S. securities. As of December 31, 2017, and 2016, the Plan held no investments in foreign currency denominations, however the following mutual and/or commingled funds contained underlying foreign related investments as follows:

# NOTE F. INVESTMENTS (Continued)

	2017	 2016
Morgan Stanley Investment Management		_
International Equity Trust	\$ 75,720,617	\$ 60,379,892

Morgan Stanley Investment Management		
International Equity Trust	75,720,617	60,379,892
Vanguard High Yield Corporate Fund	69,042,830	64,448,215
Wellington OIA Fund	66,664,310	56,576,894
JP Morgan Global Focus Fund	78,288,752	63,851,941
Total	\$ 524,815,136	\$ 532,322,175

For U.S. Government or Agency securities, investment managers invest no more than 7 percent of their portion of Plan assets, at cost, and no more than 10 percent at market, in securities of any one issuer or its subsidiaries or affiliates.

#### NOTE G. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of plan net position.

#### NOTE G. RISKS AND UNCERTAINTIES (Continued)

In May of 2016, subsequent to other SEC-related charges and a declaration of technical default by the bond's trustee, federal prosecutors brought charges in the Southern District of New York against seven individuals for securities fraud and investment adviser fraud related to the issuance of Wakpamni Lake bonds and the misuse of funds which were to be placed in the annuity agreement. The charges strongly suggest an impairment of the securities in the amount of the face amount of the bonds plus any accrued interest. Consequently, during fiscal year 2016, the Plan made a full provision for the investment value and accrued interest of \$4,210,280 and \$77,145, respectively, of the Wakpamni Lake bonds.

Representatives of the Plan continue to participate in on-going bondholder activities related to potential recovery of the funds. Meanwhile, the investment firm which first placed the trade on the Plan's behalf, Atlantic Asset Management (the former Hughes Capital), has been placed into receivership by the SEC and a plan for distribution of the firm's remaining assets has been filed with the court by the receiver.

#### NOTE H. RELATED-PARTY TRANSACTIONS

An affiliate of the Plan's custodian, Northern Trust Asset Management, became an investment manager for the Plan in fiscal year 2014. At December 31, 2017, funds managed totaled \$62.3 million and comprised of cash equivalents and investments of \$1.5 million and \$60.8 million, respectively. For the year ended December 31, 2017, the Plan incurred approximately \$103,111 in management fees with this investment manager.

At December 31, 2016, funds managed totaled \$63.3 million and comprised of cash equivalents and investments of \$13.3 million and \$50.0 million, respectively. For the year ended December 31, 2016, the Plan incurred approximately \$94,630 in management fees with this investment manager.

#### NOTE I. NET PENSION LIABILITY

The components of the net pension liability of WSSC at December 31, 2017 and 2016 were as follows:

	2017	2016
Total pension liability Plan fiduciary net position	\$ 936,361,482 (833,825,358)	\$ 917,584,542 (744,797,952)
Net pension liability	\$ 102,536,124	\$ 172,786,590
Plan's fiduciary net position as a percentage of the total pension liability	89.0%	81.2%

#### Actuarial assumptions

The total pension liability was determined by an actuarial valuation as of July 1, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

	2017	2016
Inflation	2.50%	2.50%
Salary increases	2.75% to 7.50%	2.75% to 7.50%
Investment rate of return	7.00%	7.00%

The mortality rates were based on the RP-2000 Healthy Annuitant Mortality Table for Males or Females, with Blue Collar adjustments and one-year age set-forward and projected to 2025 using Scale BB. The GAM83 tables with 10-year set forward were used for the valuation of disabled members. The actuarial assumptions used in the July 1, 2017 valuation was based on the results of an actuarial experience analysis covering 2011 through 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. This is then modified through a Monte-Carlo simulation process, by which a (downward) risk adjustment is applied to the baseline expected return.

### NOTE I. NET PENSION LIABILITY (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation and the final investment return assumption are summarized in the following table:

	2017	Approximate Portfolio Allocation
Asset class:		
U.S. Equity	5.75%	40%
Non- U.S. Equity	6.25%	25%
US Fixed Income	2.80%	30%
Real Estate	4.40%	5%
Total Weighted Average Real Return	4.92%	100%
Plus Inflation	2.50%	
Total Return without Adjustment	7.42%	
Risk Adjustment	-0.42%	
Total Expected Return	7.00%	

#### Discount Rate

The discount rate used to measure the total pension liability 7.00% for 2017 and 2016. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Commission contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### Other Key Actuarial Assumptions

The other key actuarial assumptions that determined the total pension liability as of December 31, 2017 and 2016 included:

#### NOTE I. **NET PENSION LIABILITY (Continued)**

### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Valuation date	July 1, 2017	July 1, 2016
Measurement date	December 31, 2017	December 31, 2016
Inflation	2.50%	2.50%
Salary increased including inflation	2.75% to 7.50%	2.75% to 7.50%

The following presents the net pension liability of the Plan, calculated using the discount rate of 7.00% for 2017 and 2016, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate.

	2017								
		1% Decrease 6.00%	Curre	ent Discount Rate 7.00%	1% Increase 8.00%				
Net pension liability	\$	207,446,815	\$	102,536,124	\$ 13,785,470				
			2						
		1% Decrease 6.00%	Curre	nt Discount Rate	1% Increase 8.00%				
Net pension liability	\$	278,237,611	\$	172,786,590	\$ 83,773,683				

The Plan's change in total pension liability, plan fiduciary net position and net pension liability are presented below:

This schedule is presented to illustrate the requirement to show information for 10 years. The Plan presents information for available years and additional years will be displayed as they become available.

#### Notes to Schedule of Changes in Net Pension Liability and Related Ratios:

**Benefit changes** – There have been no changes in benefit assumptions since the implementation of GASB 67 and 68.

*Changes in assumptions* – There were several changes in actuarial assumptions since the prior year, including rates of mortality, retirement, and termination; as well as inflation, salary increases, and investment return.

# WASHINGTON SUBURBAN SANITARY COMMISSION EMPLOYEES' RETIREMENT PLAN REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED) SCHEDULE OF EMPLOYER CONTRIBUTIONS

2017		18,591,764	24,193,212	(5,601,448)		143,155,101	16.90%

#### **Notes to Schedule of Contributions:**

#### Valuation date:

Actuarially determined contribution rates are calculated as of July 1st of the fiscal year in which the contributions are reported. WSSC's policy is to complete an actuarial study at least once every two years.

#### Methods and assumptions used to determine contribution rates:

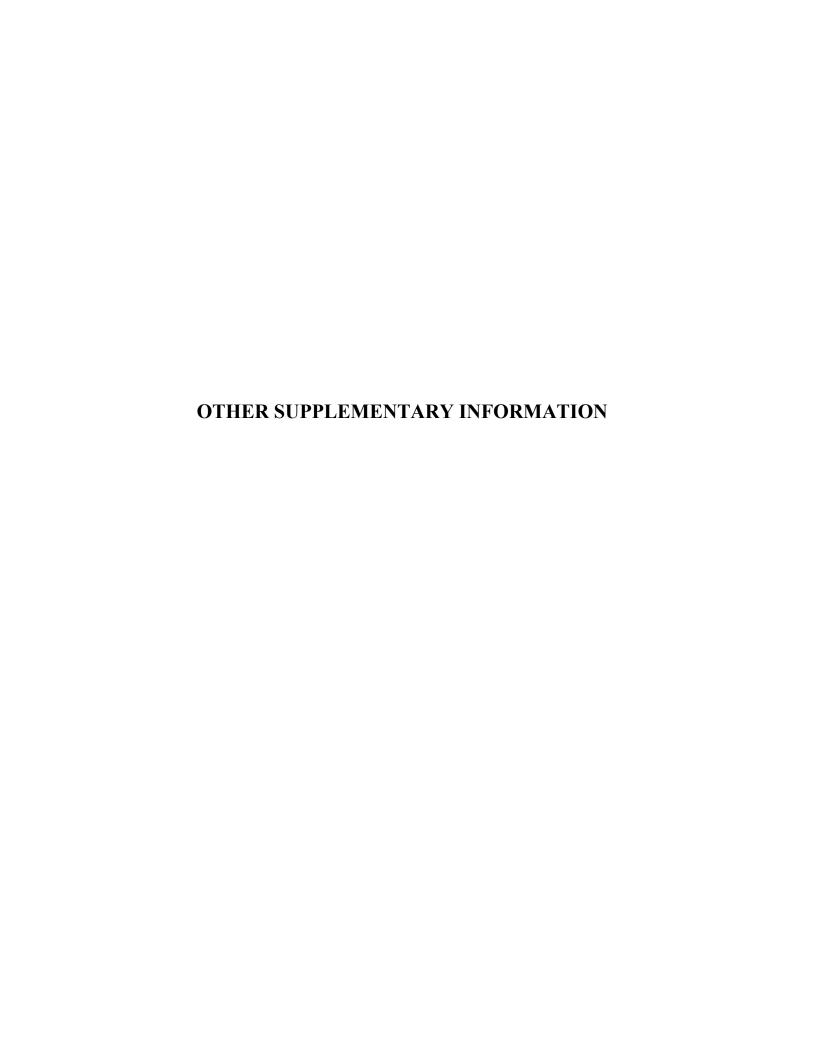

Actuarial cost method	Entry age normal (funding valuation uses a fixed rate of contribution)
Inflation	2.50%
Salary increases	2.75 to 7.50 % including inflation
Investment rate of return	7.0% net of pension plan investment expenses, including inflation
Cost of living adjustments	2.50%
Retirement age	Table of rates by age and eligibility
Mortality	Mortality rates were based on the RP-2000 Healthy
	Annuitant Mortality Table for Males or Females, with
	Blue Collar adjustments and one-year age set-forward
	and projected to 2025 using Scale BB. The actuarial
	assumptions used in the July 1, 2017 valuation were
	based on the results of an actuarial experience analysis
	covering 2011 through 2016.
