Subject: RE: Clarksburg Ten Mile Creek Sewer Study Working Draft UPDATE - CAC and Agency Comments Next Steps
Date: Friday, December 18, 2015 5:32:16 PM

Ken,

Thanks for the update on what is happening and on the information. I apologize for not getting back to you sooner but I have been slowed up with health problems. Of the Alternatives, I highly support Alternative 10. An excellent job was done on producing the Working Draft Report.

Regards,

Steve

Subject: RE: Clarksburg Ten Mile Creek Sewer Study Working Draft UPDATE - CAC and Agency Comments Next Steps

Good afternoon, I have received comments from most of you – there may be few more comments pending today's deadline. Thank you to those of you who have already submitted comments. We are planning to go through all the comments you have provided and make any required changes or revisions to the working draft report. Next week, before the holiday break, we will post the submitted comments to the Sewer Study website (just as a reminder, the link to the web page is provided below). I will send a follow-up e-mail when the comments have been posted next week, before I go on vacation for the holidays.

[sewer.html](#)

Regarding our next steps, we plan to provide a cover letter with the working draft report, CAC comments, and a revised/final draft report. The cover letter would address the comments submitted by the CAC, County Agencies, etc. (stating why we agree or disagree with the itemized list of comments submitted). We hope to send the report, comments, etc., in a recommendation letter to our management and then hopefully provide a transmittal letter with the attachments to the County Council and Planning Board for their consideration. FYI, we have a new General Manager, Ms. Carla Reid, coming on board to WSSC on Monday, January 4, 2016, so keep that in mind as well in terms of this process and timing (I will provide updates if any schedule change occurs).

We are currently proposing to have this process finalized and the transmittal package ready by the end of January. Thanks and Happy Holidays (Merry Christmas, Happy Hanukkah, Happy Kwanzaa and Happy New Year)!

Ken Dixon
Planning Unit Coordinator - Sewer Planning Unit
Planning Group

Please note, my e-mail address has changed to kenneth.dixon@wsscwater.com

Established in 1918, today **WSSC** is among the largest water and wastewater utilities in the nation, with a network of nearly 5,600 miles of fresh water pipeline and more than 5,400 miles of sewer pipeline. Serving 1.8 million residents in Prince George's and Montgomery counties, WSSC drinking water has always met or exceeded federal standards..
