**RE: Decreased Water Pressure in Your Community on Saturday, March 17, 2018**

Dear WSSC Customer:

As part of our ongoing efforts to improve service and reliability for our customers, WSSC is currently replacing a large water main in your area. As a result of work associated with the Leeland Road Transmission Water Main Replacement project, you may experience **lower than normal water pressure beginning Saturday, March 17, 2018, at 9:00 p.m. and continuing until Sunday, March 18, 2018, at 5:00 a.m. (new date)** If our crews are unable to complete this work because of inclement weather (heavy rain, snow, etc.) or we experience technical issues, it will be rescheduled for Saturday, March 24, beginning at 9:00 p.m. to Sunday, March 25, 2018, at 5:00 a.m. (new date)

We will make every effort to avoid a complete loss of water service during this period, but as a precaution we are establishing a water station, starting at 7:00 p.m., which will be located at the Beechtree Community Clubhouse, 15511 Beech Tree Parkway Upper Marlboro, MD 20774. For updates, follow us online at [wsscwater.com](http://wsscwater.com) or social media, Twitter: @WSSCWaterNews, and Facebook: @WSSCWater.

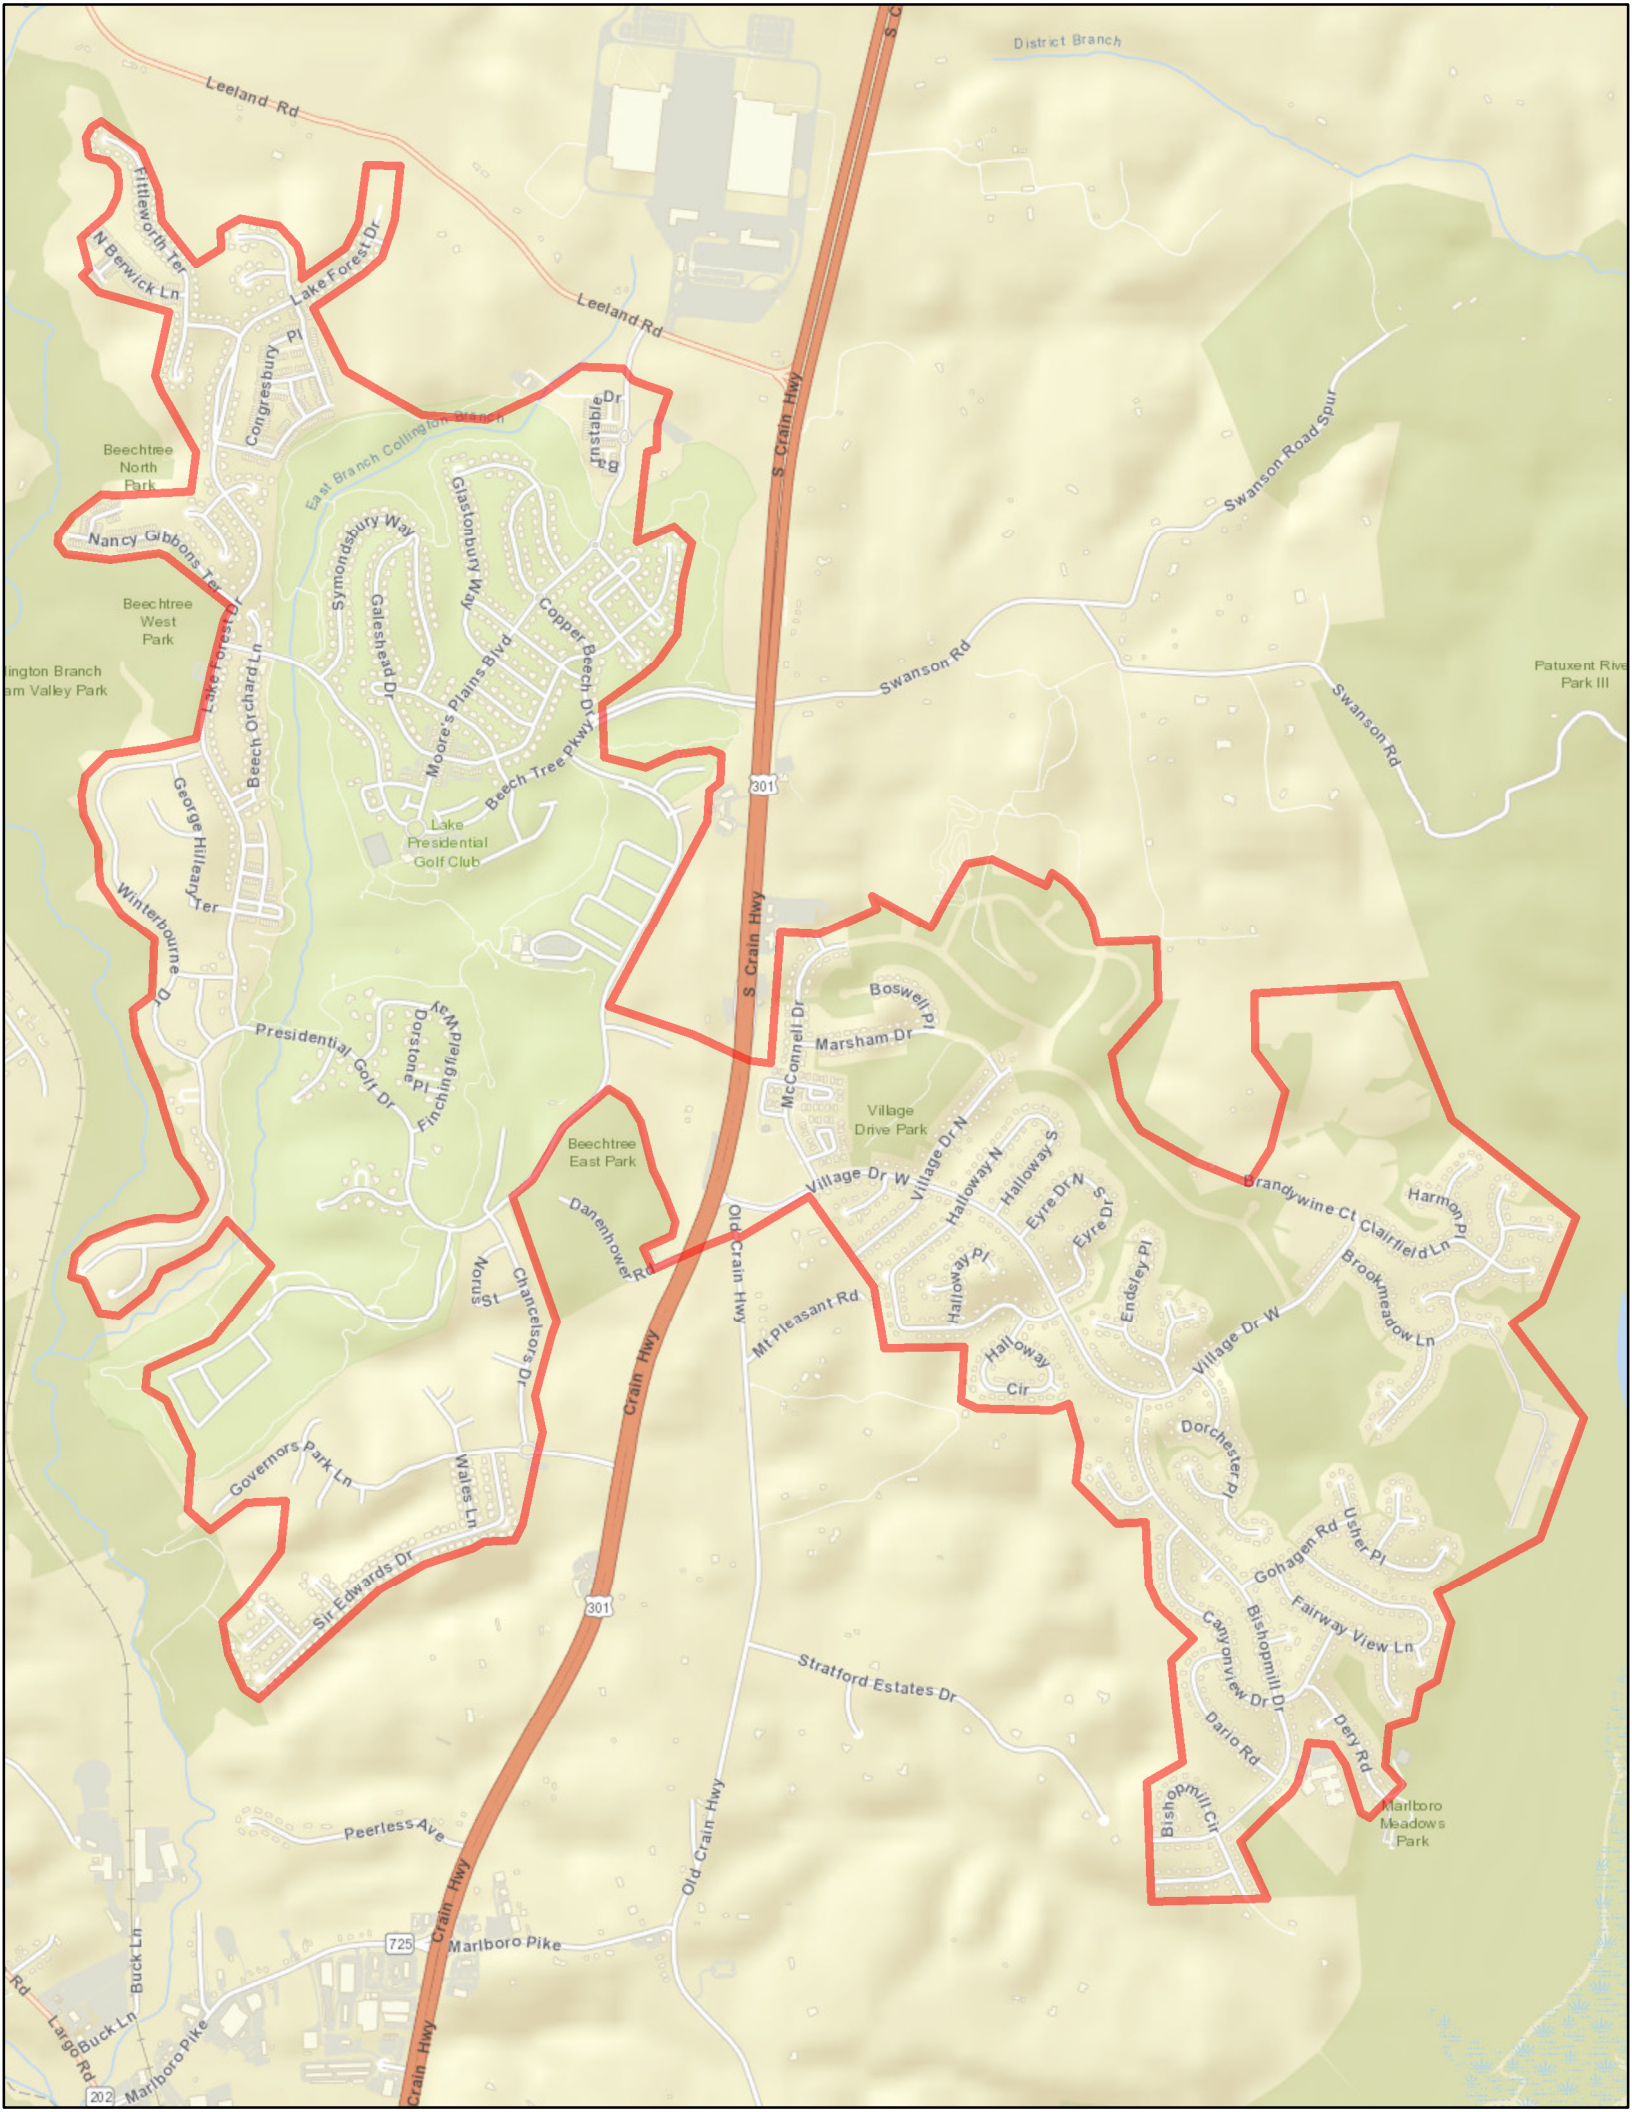

Here are some additional tips you may find useful during this temporary loss of water pressure:

- In anticipation of this work, you may want to store water for short-term use. Water for consumption can be stored in clean glass or plastic containers. Water for other purposes can be stored in sinks, bathtubs, laundry tubs, coolers or pots and pans. Make sure large containers of water are not accessible to children.
- When your water pressure is fully restored, you may experience discolored water or have air trapped in your water lines. Flushing your cold water lines should resolve both problems. Begin by opening the bathroom tub faucet or sink faucet on the highest floor in your home. Then open the other faucets one at a time, moving from your highest floor to your lowest. Running the cold water for a minute or two should clear the trapped air and flush out the discolored water.
- WSSC recommends that you NOT wash clothes during this time because clothes may become stained. If you experience stained clothing as a result of this event, WSSC will mail you a package of Rit Rust Remover free of charge. Contact the Communications Office at 301-206-8100 or by email at [communications@wsscwater.com](mailto:communications@wsscwater.com) to request the rust remover.

**CONTACT INFORMATION/QUESTIONS**

- On-site WSSC Inspector: Tim Clark, 443-442-4127, [Timothy.Clark@wsscwater.com](mailto:Timothy.Clark@wsscwater.com)
- WSSC Technical Contract Supervisor: Randy Bond, 301-206-7317, [Ralph.Bond@wsscwater.com](mailto:Ralph.Bond@wsscwater.com)
- **In the event of a water or sewer emergency, contact WSSC's 24-Hour Emergency Call Center at 301-206-4002.**

*We understand the inconvenience these types of projects can cause and we appreciate your patience as we work to upgrade our infrastructure.*
