

## POWDER MILL ROAD (AND VICINITY) WATER MAIN REPLACEMENT

**A WSSC PROJECT IS COMING TO YOUR NEIGHBORHOOD!** WSSC (Washington Suburban Sanitary Commission) maintains over 11,000 miles of water and sewer mains and after nearly a century of providing safe and reliable water and sewer service to the residents of Montgomery and Prince George's counties, WSSC is facing the challenge of decaying infrastructure. In keeping with WSSC's commitment to providing our customers with safe, quality water and wastewater service, we are renewing our aging infrastructure at a rate of approximately 60 miles of water mains and 56 miles of sewer mains annually.

[WSSC plans to meet with your community in the near future to discuss this project. Additional information is forthcoming.](#)

### **Project Overview**

The water mains in the Powder Mill Road area will be replaced with new ductile iron pipe, which will reduce the frequency of water main breaks. In the event your water service line is galvanized pipe, WSSC will replace the portion of the water main between the public main and the property line connection, at no cost to you.

### **Scope of Work**

- WSSC will replace approximately 2.74 miles of water mains.
- **Affected Streets Include:** Powder Mill Road, Glenmore Drive, Knollwood Road, Floral Drive; Pinewood Court; Bond Road, Pleasant Acres Drive, Boxer Road, Collier Road, Cherry Mill Drive, Cherry Hill Road, Cherryvale Terrace, Allview Drive, Evans Trail and Beltsville Drive.
- The current water mains were originally installed in the 1960s and are nearing the end of their life cycle.

### **Project Schedule**

The design for the Powder Mill Road Water Main Replacement Project has been completed. The construction schedule is estimated and may change based on issuance of permit or contracts. Inclement weather could affect the proposed project schedule.

- Estimated construction start: Fall 2017
- Estimated construction completion: Fall 2018
- Anticipated work hours: 8:00 a.m. to 4:00 p.m.

### **Service Interruptions and Environmental Impacts**

- Water service may be interrupted for a few hours, while the new main is being connected. Customers will receive a 48-hour advance notification for service interruption.
- WSSC is working closely with residents and regulatory agencies to minimize disruptions to traffic.
- Some trees may have to be pruned or removed to accommodate the work. Residents will be notified prior to construction, if there is a need for any tree removal.
- WSSC will restore the area when construction is completed.

### **Contact Information/Questions**

- Project Manager, Samuel Bajomo, 301-206-8523 or by e-mail at [Samuel.Bajomo@wsscwater.com](mailto:Samuel.Bajomo@wsscwater.com) and refer to Project No. BR/BM5924A15
- **Contact the 24-Hour Emergency Call Center at [301-206-4002](tel:301-206-4002), in the event of a water or sewer emergency.**
