

## 48-inch Patuxent Raw Water Pipeline

As part of our ongoing efforts to enhance service and reliability to our customers, **a WSSC Water project is coming to your neighborhood**. It's all part of our commitment to strategically replace and rehabilitate the aging water and sewer mains throughout our service area.

### **Scope of Work**

- Construction of approximately 2.5 miles of new 48-inch ductile iron raw water pipeline extending from the Rocky Gorge Pumping Station to the Patuxent Filtration Plant.
- Relocation of approximately .11 miles of existing 8-inch water main within Bond Mill Road ending at the intersection of McCahill Drive and Diploma Drive.
- The majority of the pipeline will be constructed adjacent to Brooklyn Bridge and within Bond Mill Roads.
- Mill and overlay of the entire roadway width of areas of roadway affected by pipeline construction.

### **Estimated Project Schedule**

- Estimated construction start: Spring 2020
- Estimated construction duration: 2 ½ years, weather permitting
- The estimated project schedule may change based on issuance of permits, available funds or inclement weather.

### **Additional Information**

- Some trees may have to be pruned or removed to accommodate the work. If any trees need to be removed, residents will be notified prior to construction. All tree removal and pruning will be supervised by a WSSC Water urban forester.
- WSSC Water will provide residents at least 48-hour advance notification in the event of any parking restrictions and changes in work hours.
- WSSC Water will restore sidewalks, roadways and landscaping within 90 days of construction completion.
- Projects completed during the winter months will be restored the following spring.

### **Contact Information/Questions:**

- Project Manager, Tesfai Giorgis, 301-206-4267 or by e-mail at [Tesfai.Giorgis@wsscwater.com](mailto:Tesfai.Giorgis@wsscwater.com) and refer to Project No. BF1582E91.
- **Contact WSSC Water's 24-Hour Emergency Call Center at [301.206.4002](tel:301.206.4002) in the event of a water or sewer emergency.**
- Additional information regarding WSSC's water main replacement process can be found online at <https://www.wsscwater.com/patuxentrwp>.
- **Sign-up at [www.wsscwater.com/CNS](http://www.wsscwater.com/CNS), to receive emails and/or text alerts so you can keep updated on work in your neighborhood.**

# 48-inch Patuxent Raw Water Pipeline

We understand the inconvenience these types of projects can cause and appreciate your patience as we work to provide safe, seamless and satisfying water services, for our customers every day.
