	Improved Area			
1-1/4 & 1-1/2 inch Pressure Sewer	\$975.00			
4 & 6 inch	\$975.00			

**\*DEFERRED PAYMENT RESIDENTIAL CONNECTION CHARGES.** As of January 1, 2003, the Deferred Payment Plan is available for all single family residential house connections constructed by the Commission and is available only with the Standard Service Connection fee (Rights-of-way connections cannot be deferred). The deferred connection charge is the rate in effect the year following the completion of service connection construction.

### \*APPLICANT INSTALLED SERVICE CONNECTIONS\*

**Please Note:** Residential properties are eligible to use the Applicant Installed permit process (this means the applicant must hire their own qualified utility contractor). See **Non-Residential Service Connections** sheet for Application & Inspection Fees plus Payment and Performance Security Amounts. For additional details regarding the Applicant Installed permit process please refer to the Applicant Installed forms and instructions on WSSC web site at [www.wsscwater.com](http://www.wsscwater.com).

### DEFERRED HOUSE CONNECTION ESTIMATES (constructed & buried 2024)

(Assessed during Levy 2025)

Size	Unimproved Area	Improved Area
1 inch Water	\$3,490 = \$280 annually	\$12,300 = \$984 annually
1-1/2 inch Water	\$3,490 = \$280 annually	\$12,300 = \$984 annually
2 inch Water	\$3,490 = \$280 annually	\$12,300 = \$984 annually
4 & 6 inch Sewer	\$7,770 = \$622 annually	\$15,750 = \$1,260 annually

\*estimates are based on deferred connection projections X .08000 (partial payment factor)

### \*\*WSSC FRONT FOOT BENEFIT CHARGES\*\*

In the year following completion of water and/or sewer main construction by WSSC, property is assessed a WSSC FRONT FOOT BENEFIT CHARGE (FFBC), as required by law, to repay funds borrowed to finance construction. WSSC's FFBC appears on the property tax bill for a pre-determined number of years, depending on bond issue (presently 30 years), but may be paid off in full at any time. WSSC's FFBC is determined by multiplying the property's assessable footage by the rate per foot for the appropriate classification -- rates change yearly. Irregularly shaped lots are assessed using average footage of neighboring properties. In areas designated by County Governments as Service Area 5 or 6, WSSC places the assessment in hiatus (suspends) until such time as County policy will allow service. In Service Areas 1 through 4, existing houses with satisfactory well and/or septic systems will be granted an exemption from the assessment until the property owner requests service from a WSSC-built water main or sewer line. Upon connecting (hook-up) to the WSSC-built water and/or sewer mains, any and all property not previously assessed becomes immediately subject to FFBC.

**\*NON-RESIDENTIAL SERVICE CONNECTIONS\*****Application & Inspection Fee for Applicant Installed Service Connections**

One Water and/or Sewer Connection per Permit \$ 2,430.00
