In infrastructure assets maintained on behalf of our customers

Sewer Rehabilitation Program Overview

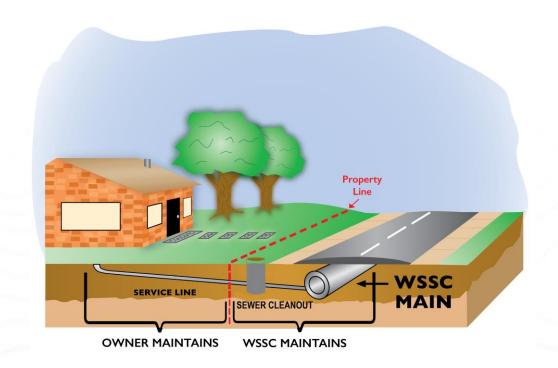

- Strategically replacing and rehabilitating aging infrastructure to enhance service and reliability to customers
- Replacing and repairing aging pipes and manholes as part of our comprehensive sewer rehabilitation program
- Correcting structural deficiencies in sewer mains that may result from soil settlement, root penetration or corrosion.
 - These defects can contribute to sanitary sewer overflows and backups into homes
- Protecting the environment for future generations

Project Overview

- Approximately I.3 miles of sewer pipes and 46 manholes to be rehabilitated
- Sewer pipes and manholes rehabilitated using primarily trenchless methods, however several sewer mains will be open cut replaced.
- Sewer house connections to the property line will be rehabilitated using open cut method.
- New cleanouts will be installed for renewed sewer house connections at the customer's property line.
- Completed projects will extend the life of sewer pipes by at least 50 years

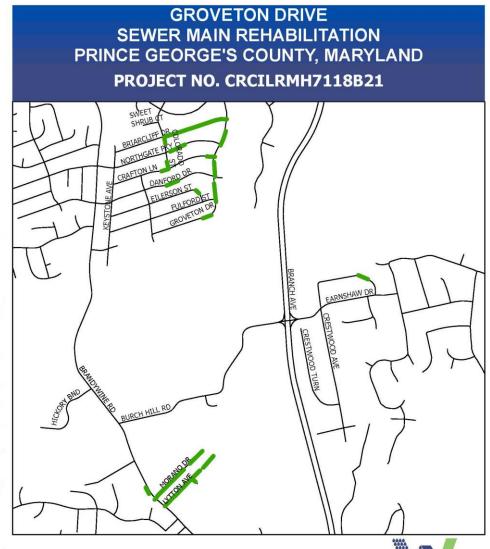

Project Map

Directly Impacted Streets

- Brandywine Road
- Morano Drive
- LYTTON AVENUE
- Malthus Street
- N CRESTWOOD AVENUE
- GROVETON DRIVE
- •EILERSON STREET

- NORTHGATE PKWY

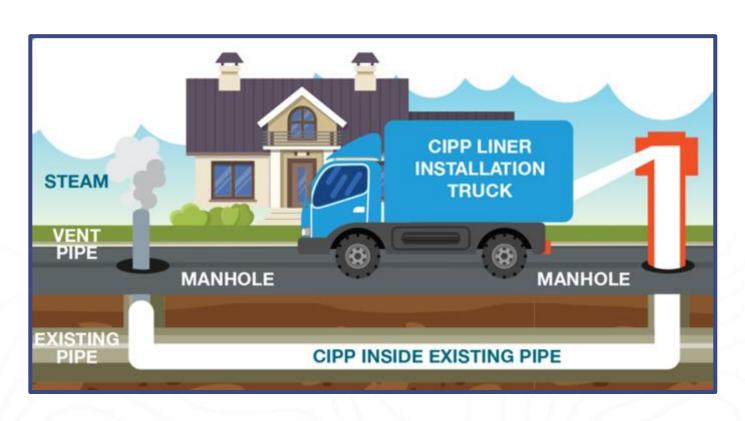

- Sewer Mainline Rehabilitation
 - Lining
 - Pipe Bursting
 - Open cut
 - OPoint repair

- Manhole Rehabilitation
 - Frame and Cover replacement
 - Lining

Sewer Rehabilitation Method: Pipe Lining

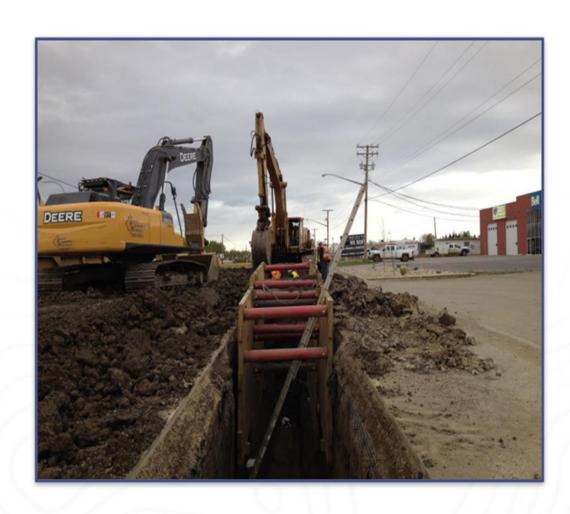

Sewer Rehabilitation Method: Open Trench

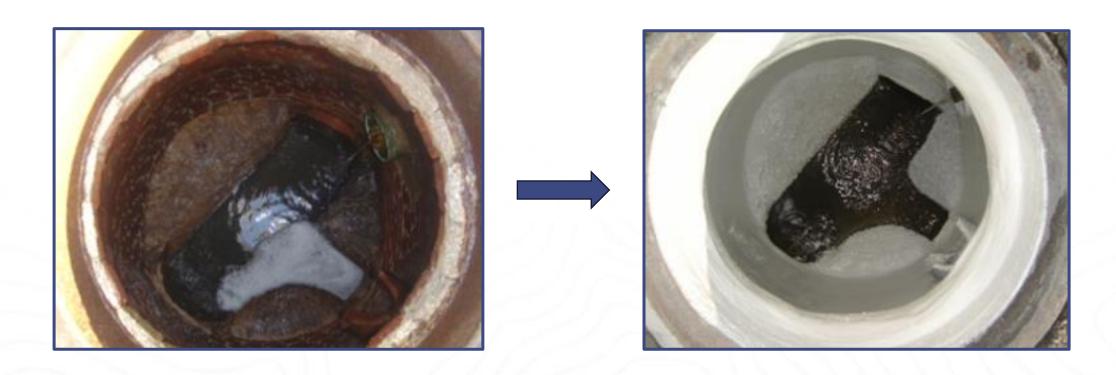

Manhole Rehabilitation

Before After

Tree Removal and Pruning

- The Department of Natural Resources Maryland Forest Service Public Agency Tree Maintenance Permit requires construction methods that minimize tree impacts to be considered.
- Prior to the final decision to remove a tree, WSSC Water considers the following factors:
 - Size, species and structural condition of the tree
 - Impact the tree will have on utility assets
 - Feasibility of relocating our infrastructure or using trenchless methods
- A WSSC Water Urban Forester supervises all tree removal and pruning.

WSSC Water infrastructure

Estimated Construction Schedule

August 2025*

Anticipated Rehabilitation Start

August 2026*

Estimated Rehabilitation Completion

*Construction schedule is estimated and weather dependent

What to Expect During Construction (cont.)

- Open-cut construction method, which involves cutting and excavating a section of the pavement
- This construction method does create noise and dust

What to Expect During Construction

- Anticipated Work schedule: 9:00 a.m. to 3:30 p.m.,
 Monday-Friday
 - Conditions at some locations may require different work hours
 - Residents will be notified at least two days prior for street parking restrictions
- Construction activities may include:
 - Marking locations of utilities
 - Field inspections
 - Rehabilitation of sewer mains, manholes and laterals
 - Pavement, curb, sidewalk, yard restoration where digging is necessary
- WSSC Water coordinates with local and state agencies, as well as other utilities for all planned work to avoid potential conflict and minimize disturbances to neighborhoods

- Tree removal and replacement tree planting
- New sewer cleanout installed at property line for each renewed lateral
- Final restoration of sidewalks, roadways and landscaping will take place within 90 days of construction completion

Traffic Impacts

- Certain construction activities may require temporary changes to traffic patterns
 - Traffic will be managed to minimize community disruptions
- Access will be maintained to homes during construction
 - Access into homes is NOT required
 - Access onto private property is generally NOT required
- Parking restrictions
 - WSSC Water will provide 48-hour advance notice (denoted by "No Parking" signs) before any parking restrictions
 - Any vehicles not removed from the designated area will be towed to a nearby street at no cost to owner

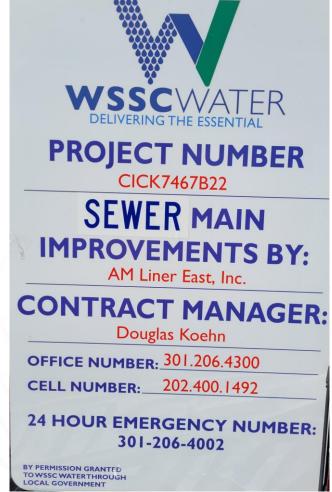

WSSCWATER DELIVERING THE ESSENTIAL

- Construction signs with contact persons placed throughout project area
- Projects completed during winter months are permanently paved and restored to their original state or better the following spring

Project Summary

- Overview: Existing sewer mains are near the end of their useful lives
- Replacements: WSSC Water is replacing the sewer mains and laterals up to the property line
- Service: WSSC Water will minimize service disruptions during construction
- Coordination: WSSC Water will coordinate work activities with property owners in the project area
- Restoration: WSSC Water will restore all areas impacted by construction activities at the end of the project
- Objective: WSSC Water's goal is to provide a reliable wastewater system to customers

Helping Our Neighbors:

Water Bill Assistance

Promise.

Sign up for an affordable, flexible and interest-free payment plan. Customers with a past-due balance of \$50 or more are eligible.

CUSTOMER ASSISTANCE PROGRAM (CAP)

CAP assists approved residential customers by waiving fixed fees, providing free annual leak investigations and much more.

Eligible customers can access the Water Fund multiple times, up to \$500 per year.

Provides a loan **up to**\$10,000 to finance the repair, replacement or diagnostics of sewer or water on-property service line. The WSSC Federal Credit Union administers PipeER.

Contact Us: (301) 206-4001 customerservice@wsscwater.com

Customer Notification System (CNS)

Report Water/Sewer Emergency

Customer Advocate

WSSCWATER DELIVERING THE ESSENTIAL

- The Customer Advocate provides a support interface between both commercial and residential customers, WSSC Water employees, public officials, county agencies, HOAs/civics and other key external stakeholders with the goal of providing exceptional customer service.
- Advocates are responsible for educating WSSC
 Water's external customers on a variety of
 topics including financial assistance, water
 conservation and other important commission
 initiatives.
- They also coordinate "on the scene" customer support during emergency events.

Southern Prince George's County (areas south of Central Avenue)
