Summary of Services Disclaimer

The purpose of this Benefits Guide is to give you basic information about your benefit options and how to enroll for coverage or make changes to existing coverage. This guide is only a summary of your choices and does not fully describe each benefit option. For a more detailed description of benefits, please refer to the plan's benefit booklet, brochure, summary plan description (SPD), summary of benefits and coverage (SBC) or evidence of coverage (EOC). You may also call the plan using the customer service phone number on the last page of this guide.

Please note that plans will not cover a service if it is not considered medically necessary. Additionally, if your physician or facility discontinues participation in a plan, you will not be allowed to change plans outside the window of Open Enrollment as this is NOT considered a qualifying life event for you or your dependents.

Every effort has been made to ensure the information contained in this guide is accurate; however, if there are discrepancies between this guide and the contract with the carrier, the contract will govern.

Flexible Spending Accounts

WHAT IS A FLEXIBLE SPENDING ACCOUNT?

A Flexible Spending Account (FSA) allows employees to pay for eligible medical and/or dependent (i.e. daycare) care expenses (up to age 13) on a pre-tax basis, saving you money on your income taxes.

HOW MUCH MONEY CAN I PUT IN MY FSA ACCOUNT?

The maximum annual contribution for the Medical FSA account in 2026 will increase to \$3,400; the minimum annual contribution is \$260. The maximum annual contribution for the Dependent Care FSA account in 2026 will increase to \$7,500 (per household); the minimum annual contribution is \$260.

HOW DO I ENROLL?

Enrollment is done in One-Source during the Open Enrollment Period. If you have FSA in 2025 and want it to continue in 2026, YOU MUST re-enroll online to participate in 2026. **Your current enrollment will not carry over to 2026.**

HOW DO I GET REIMBURSED FOR ELIGIBLE EXPENSES?

Eligible expenses through the Medical FSA can be paid with the debit card provided by VOYA (formerly known as Benefit Strategies), or by submitting your receipt(s) with a signed Healthcare Reimbursement Form. Auto-validation is also available (participation in WSSC Water insurance program required and not applicable to Kaiser Participants). Eligible expenses through the Dependent Care FSA are reimbursed through a Dependent Care Reimbursement Form. You can mail, fax or submit your signed Dependent Care claim form online along with your receipt(s) to VOYA. Payments are issued three times per week and you can elect to have a check mailed to your home or directly deposited into your personal bank account. All reimbursement forms can be found on the WSSC Water Intranet and the VOYA web sites.

WHAT IS AUTO-VALIDATION?

Your insurance carrier will send VOYA your visit or service information to validate your FSA debit card transactions. This will reduce the number of times VOYA requests receipts from you to prove you used your card correctly. Please remember that the auto-validation process applies only to services that are first sent to your insurance carrier.

CAN I CHANGE THE AMOUNT I CHOOSE TO CONTRIBUTE TO MY FSA?

Your annual goal amount can only be changed within 30 days of a change-of-life event.

WHAT HAPPENS IF I HAVE EXCESS MONEY LEFT IN MY ACCOUNT FOR 2025 AT THE END OF THE YEAR?

You have until April 15, 2027 to submit claims for reimbursement with dates of service from January 1, 2026 through December 31, 2026. If you have a balance remaining in your FSA account on December 31, 2026, you may submit qualified receipts for dates of service from January 1, 2027 to March 15, 2027, which would be applied to your balance of 2026 (this helps you in reducing any remaining funds). IRS regulations require that any funds left in your account after that date be forfeited.

IF I ENROLL IN FSA FOR 2026, CAN I GET REIMBURSED FOR EXPENSES THAT I INCURRED IN 2025?

No, this is referred to as a split payment and would be denied. You cannot get reimbursed for expenses that you incurred in a previous plan year, with the exception of the grace period provisions outlined above.

Sick Leave Bank Program

The purpose of the Sick Leave Bank (SLB) is to provide additional sick leave to participants who are enrolled in the SLB after being out of work for at least seven consecutive days and exhausting all of their accrued sick and annual leave due to a serious health condition. The Sick Leave Bank is intended solely for extended personal illness or disability experienced by the member.

SLB MEMBERSHIP REQUIREMENTS

- All active permanent full-time and part-time employees may enroll in the Sick Leave Bank (SLB) upon employment or during the Open Enrollment period, regardless of preexisting conditions.
- Employees may continue or cancel participation during Open Enrollment by making the appropriate election through the online benefits enrollment system.
- To join the SLB, employees must donate **eight hours** of their own accumulated sick leave (or a proportional number for part-time employees).
- To maintain enrollment, an annual donation of **eight hours** of accumulated sick leave is required at the start of each plan year. If sick leave is insufficient, annual leave may be contributed.
- Employees without enough accumulated leave at the time of the donation will not be members of the SLB for that plan year.

HOW TO ENROLL OR CONTINUE MEMBERSHIP

- Make your selection in **One-Source** during the enrollment period.

ELIGIBILITY FOR SICK LEAVE BANK BENEFITS

To apply for SLB benefits, the following conditions must be met:

- You are a current SLB member who contributed hours during the most recent contribution period.
- You have a serious, **non-work-related** health condition and are unable to work for **7 or more consecutive calendar days**.
- The first **7 consecutive calendar days** of illness or non-work-related injury are not covered by the Sick Leave Bank (SLB) and must be charged to the employee's own accumulated leave balances (sick and annual). During this period, the employee must be fully incapacitated from performing work duties, as verified by a treating physician.

TO APPLY FOR SICK LEAVE BANK (SLB) BENEFITS, YOU MUST:

- Have **exhausted all of your accumulated sick and annual leave**.
- Complete the **employee portion of the Disability Benefits Claim Form**.
- Submit a **completed Disability Benefits Claim Form** from you and your treating physician, clearly describing the illness or injury that prevents you from returning to work and providing an estimated duration of the related disability.

Sick Leave Bank Program Cont.

IMPORTANT REMINDERS ABOUT SLB LEAVE

- SLB leave is granted **only** to employees with a serious health condition who are unable to work for **7 or more consecutive calendar days**. It cannot be used to care for a family member.
- The first **7 consecutive calendar days** of absence are not covered by the SLB.
- Participants **must use all accumulated sick and annual leave** before using SLB leave. Sick leave earned during the SLB period will be used each pay period before SLB hours.
- To prevent a leave without pay situation, allow **at least 3 weeks** for SLB Request processing.
- Part-time employees may receive SLB leave on the **same pro-rated basis** as their donations.
- The approval process begins with medical documentation being evaluated by a **Third-Party Administrator (TPA)**. If approved, the request for SLB hours is reviewed for eligibility.
- If approved, SLB hours are granted in increments of **up to 10 days (80 hours)**, to a maximum of **30 days (240 hours)** at a time. Within a 12-month period, SLB hours cannot exceed **60 days (480 hours)**, or more than **150 days (1,200 hours)** over the course of employment. (Prorated for part-time employees.)
- Contributed hours cannot be returned once donated.
- Participants needing additional hours should **reapply at least 7 calendar days** before exhausting granted SLB hours.
- SLB leave **does not replace other leave programs**, such as Short-Term Disability. SLB bridges the gap from the **7th day to the 90th day** of consecutive absence. If approved for Short-Term Disability while receiving SLB leave, SLB hours will end and any remaining leave will be returned to the SLB.
- SLB leave **cannot be granted** for injuries or illnesses directly or indirectly related to **Workers' Compensation**.

CHILD HEALTH INSURANCE PROGRAM (CHIP)

If you or your children are eligible for Medicaid or CHIP and you're eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial 1-877-KIDS NOW or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren't already enrolled. This is called a "special enrollment" opportunity, and you must request coverage within 60 days of being determined eligible for premium assistance. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call 1-866-444-EBSA (3272).

CHILDREN'S HEALTH INSURANCE PROGRAM REAUTHORIZATION ACT (CHIPRA) SPECIAL ENROLLMENT RIGHTS

Effective April 1, 2009, the Children's Health Insurance Program Reauthorization Act (CHIPRA) creates two new special enrollment rights for employees and their dependents. All group health plans must permit eligible employees and their dependent(s) to enroll in an employer plan if the employee requests enrollment under the group health plan within 60 days of the occurrence of following events:

1. **Loss of coverage under Medicaid or a state child health plan.**
2. **Gaining eligibility for coverage under Medicaid or a state child health plan: The Eligible Person previously declined coverage under the Plan.**
3. **Event Takes Place (for example, a birth, marriage or determination of eligibility for state subsidy).**

Please note: Once you terminate your enrollment in our group health plan, your children's enrollment will also be terminated. Your Employee Rights Under the Family and Medical Leave Act (FMLA)

What is FMLA leave?

The Family and Medical Leave Act (FMLA) is a federal law that provides eligible employees with **job-protected leave** for qualifying family and medical reasons. The U.S. Department of Labor's Wage and Hour Division (WHD) enforces the FMLA for most employees.

Eligible employees can take **up to 12 workweeks** of FMLA leave in a 12-month period for:

- The birth, adoption or foster placement of a child with you,
- Your serious mental or physical health condition that makes you unable to work,
- To care for your spouse, child or parent with a serious mental or physical health condition, and
- Certain qualifying reasons related to the foreign deployment of your spouse, child or parent who is a military servicemember.

An eligible employee who is the spouse, child, parent or next of kin of a covered servicemember with a serious injury or illness **may take up to 26 workweeks** of FMLA leave in a single 12-month period to care for the servicemember.

You have the right to use FMLA leave in **one block of time**. When it is medically necessary or otherwise permitted, you may take FMLA leave **intermittently in separate blocks of time, or on a reduced schedule** by working less hours each day or week. Read Fact Sheet #28M(c) for more information.

FMLA leave is **not paid leave**, but you may choose, or be required by your employer, to use any employer-provided paid leave if your employer's paid leave policy covers the reason for which you need FMLA leave.

Am I eligible to take FMLA leave?

You are an **eligible employee** if **all** of the following apply:

- You work for a covered employer,
- You have worked for your employer at least 12 months,
- You have at least 1,250 hours of service for your employer during the 12 months before your leave, and
- Your employer has at least 50 employees within 75 miles of your work location.

Airline flight crew employees have different "hours of service" requirements.

You work for a **covered employer** if **one** of the following applies:

- You work for a private employer that had at least 50 employees during at least 20 workweeks in the current or previous calendar year,
- You work for an elementary or public or private secondary school, or
- You work for a public agency, such as a local, state or federal government agency. Most federal employees are covered by Title II of the FMLA, administered by the Office of Personnel Management.

How do I request FMLA leave?

Generally, **to request FMLA leave you must:**

- Follow your employer's normal policies for requesting leave,
- Give notice at least 30 days before your need for FMLA leave, or
- If advance notice is not possible, give notice as soon as possible.

You **do not have to share a medical diagnosis** but must provide enough information to your employer so they can determine whether the leave qualifies for FMLA protection. You **must also inform your employer if FMLA leave was previously taken** or approved for the same reason when requesting additional leave.

Your **employer may request certification** from a health care provider to verify medical leave and may request certification of a qualifying exigency.

The FMLA does not affect any federal or state law prohibiting discrimination or supersede any state or local law or collective bargaining agreement that provides greater family or medical leave rights.

State employees may be subject to certain limitations in pursuit of direct lawsuits regarding leave for their own serious health conditions. Most federal and certain congressional employees are also covered by the law but are subject to the jurisdiction of the U.S. Office of Personnel Management or Congress.

What does my employer need to do?

If you are eligible for FMLA leave, your **employer must:**

- Allow you to take job-protected time off work for a qualifying reason,
- Continue your group health plan coverage while you are on leave on the same basis as if you had not taken leave, and
- Allow you to return to the same job, or a virtually identical job with the same pay, benefits and other working conditions, including shift and location, at the end of your leave.

Your **employer cannot interfere with your FMLA rights** or threaten or punish you for exercising your rights under the law. For example, your employer cannot retaliate against you for requesting FMLA leave or cooperating with a WHD investigation.

After becoming aware that your need for leave is for a reason that may qualify under the FMLA, your **employer must confirm whether you are eligible** or not eligible for FMLA leave. If your employer determines that you are eligible, your **employer must notify you in writing:**

- About your FMLA rights and responsibilities, and
- How much of your requested leave, if any, will be FMLA-protected leave.

Where can I find more information?

Call **1-866-487-9243** or visit **dol.gov/fmla** to learn more.

If you believe your rights under the FMLA have been violated, you may file a complaint with WHD or file a private lawsuit against your employer in court. **Scan the QR code to learn about our WHD complaint process.**

As a result, to the extent state law applies, the privacy laws of a particular state, or other federal laws, rather than the HIPAA Privacy Regulations, might impose a privacy standard under which we will be required to operate. For example, where

such laws have been enacted, we will follow more stringent state privacy laws that relate to uses and disclosures of the protected health information concerning HIV or AIDS, mental health, substance abuse/chemical dependency, genetic testing, and reproductive rights. In addition to these state law requirements, we also may use or disclose protected health information in the following situations:

Payment: We might use and disclose your protected health information for all activities that are included within the definition of "payment" as written in the

HIPAA

Federal Privacy Regulations. For example, we might use and disclose your protected health information to pay claims for services provided to you by doctors, hospitals, pharmacies and others for services delivered to you that are covered by your health plan. We might also use your information to determine your eligibility for benefits, to coordinate benefits, to examine medical necessity, to obtain premiums, and to issue explanations of benefits to the person who subscribes to the health plan in which you participate.

Health Care Operations: We might use and disclose your protected health information for all activities that are included within the definition of “health care operations” as defined in the Federal Privacy Regulations. For example, we might use and disclose your protected health information to determine our premiums for your health plan, to conduct quality assessment and improvement activities, to engage in care coordination or case management, and to manage our business.

Business Associates: In connection with our payment and health care operations activities, we contract with individuals and entities (called “business associates”) to perform various functions on our behalf or to provide certain types of services (such as member service support, utilization management, subrogation, or pharmacy benefit management). To perform these functions or to provide the services, our business associates will receive, create, maintain, use, or disclose protected health information, but only after we require the business associates to agree in writing to contract terms designed to appropriately safeguard your information.

Other Covered Entities: In addition, we might use or disclose your protected health information to assist health care providers in connection with their treatment or payment activities, or to assist other covered entities in connection with certain of their health care operations. For example, we might disclose your protected health information to a health care provider when needed by the provider to render treatment to you, and we might disclose protected health information to another covered entity to conduct health care operations in the areas of quality assurance and improvement activities, or accreditation, certification, licensing or credentialing.

Other Possible Uses and Disclosures of Protected Health

Information: The following is a description of other possible ways in which we might (and are permitted to) use and/or disclose your protected health information.

To You or with Your Authorization: We must disclose your protected health information to you, as described in the Individual Rights section of this notice. You may give us written authorization to use your protected health information or to disclose it to anyone for any purpose not listed on this notice. If you give us an authorization, you may revoke it in writing at any time. Your revocation will not affect any use or disclosures that we made as permitted by your authorization while it was in effect. Without your written authorization, we might not use or disclose your protected health information for any reason except those described in this notice.

Disclosures to the Secretary of the U.S. Department of Health and Human Services: We are required to disclose your protected health information to the Secretary of the U.S. Department of Health and Human Services when the Secretary is investigating or determining our compliance with the federal Privacy Regulations.

To Plan Sponsors: Where permitted by law, we may disclose your

protected health information to the plan sponsor of your group health plan to permit the plan sponsor to perform plan administration functions. For example, a plan sponsor may contact us seeking information to evaluate future changes to your benefit plan. We may also disclose summary health information (this type of information is defined in the Federal Privacy Regulations) about the enrollees in your group health plan to the plan sponsor to obtain premium bids for the health insurance coverage offered through your group health plan or to decide whether to modify, amend or terminate your group health plan.

To Family and Friends: If you agree (or, if you are unavailable to agree), such as in a medical emergency situation we might disclose your protected health information to a family member, friend or other person to the extent necessary to help with your health care or with payment for your health care.

Underwriting: We might receive your protected health information for underwriting, premium rating or other activities relating to the creation, renewal or replacement of a contract of health insurance or health benefits. We will not use or further disclose this protected health information received under these circumstances for any other purpose, except as required by law, unless and until you enter into a contract of health insurance or health benefits with us. In addition, we will not use your genetic information for underwriting purposes.

Health Oversight Activities: We might disclose your protected health information to a health oversight agency for activities authorized by law, such as: audits; investigations; inspections; licensure or disciplinary actions; or civil, administrative, or criminal proceedings or actions. Oversight agencies seeking this information include government agencies that oversee: (i) the health care system; (ii) government benefit programs; (iii) other government regulatory programs; and (iv) compliance with civil rights laws.

Abuse or Neglect: We might disclose your protected health information to appropriate authorities if we reasonably believe that you might be a possible victim of abuse, neglect, domestic violence or other crimes.

To Prevent a Serious Threat to Health or Safety: Consistent with certain federal and state laws, we might disclose your protected health information if we believe that the disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public.

Coroners, Medical Examiners, Funeral Directors, and Organ Donation: We might disclose protected health information to a coroner or medical examiner for purposes of identifying you after you die, determining your cause of death or for the coroner or medical examiner to perform other duties authorized by law. We also might disclose, as authorized by law, information to funeral directors so that they may carry out their duties on your behalf. Further, we might disclose protected health information to organizations that handle organ, eye, or tissue donation and transplantation.

Research: We might disclose your protected health information to researchers when an institutional review board or privacy board has: (1) reviewed the research proposal and established protocols to ensure the privacy of the information; and (2) approved the research.

Inmates: If you are an inmate of a correctional institution, we might disclose your protected health information to the correctional institution or to a law enforcement official for: (1) the institution to provide health care to you; (2) your health and safety and the health and safety of others; or (3) the safety and security of the correctional institution.

Workers' Compensation: We might disclose your protected health information to comply with workers' compensation laws and other similar programs that provide benefits for work-related injuries or illnesses.

Public Health and Safety: We might disclose your protected health information to the extent necessary to avert a serious and imminent threat to your health or safety or the health or safety of others.

Required by Law: We might use or disclose your protected health information when we are required to do so by law. For example, we must disclose your protected health information to the U.S. Department of Health and Human Services upon their request for purposes of determining whether we are in compliance with federal privacy laws.

Legal Process and Proceedings: We might disclose your protected health information in response to a court or administrative order, subpoena, discovery request, or other lawful process, under certain circumstances. Under limited circumstances, such as a court order, warrant, or grand jury subpoena, we might disclose your protected health information to law enforcement officials.

Law Enforcement: We might disclose to law enforcement officials limited protected health information of a suspect, fugitive, material witness, crime victim, or missing person. We might disclose protected health information where necessary to assist law enforcement

officials to capture an individual who has admitted to participation in a crime or has escaped from lawful custody.

Military and National Security: We might disclose to military authorities the protected health information of Armed Forces personnel under certain circumstances. We might disclose to federal officials protected health information required for lawful intelligence, counterintelligence, and other national security activities.

Other uses and Disclosures of your Protected Health Information: Other uses and disclosures of your protected health information that are not described above will be made only with your written authorization. For example, in general and subject to specific conditions, we will not use or disclose your psychiatric notes; we will not use or disclose your protected health information for marketing; and we will not sell your protected health information, unless you give us a written authorization. If you provide us with such an authorization, you may revoke the authorization in writing, and this revocation will be effective for future uses and disclosures of protected health information. However, the revocation will not be effective for information that we already have used or disclosed in reliance on your authorization.

Breach of Unsecured Protected Health Information: You must be notified in the event of a breach of unsecured protected health information. A "breach" is the acquisition, access, use, or disclosure of protected health information in a manner that compromises the security or privacy of the protected health information. Protected health information is considered compromised when the breach poses a significant risk of financial harm, damage to your reputation, or other harm to you. This does not include good faith or inadvertent disclosures or when there is no reasonable way to retain the information. You must receive a notice of the breach as soon as possible and no later than 60 days after the discovery of the breach.
