Transformation**

Team Introductions

Team Introductions

- **Allison Dunn Wilson**, Director - General Services
- **Duncan Mukira**, Division Manager - Sustainability and Support Services
- **Carmen Chalmers**, Facility Construction Manager- Facility Engineering and Construction
- **Alejandra Scott**, Administrative Contract Manager

Project Objectives

Project Objectives

- Construction and reconfiguration of the Anacostia Depot, WSSC Water's largest depot, supporting water and sewer field operations.
- Construction of a new Administration Building, improving the efficiency of the operations by consolidating existing functions into one facility.
- Addressing the deficiencies of the existing buildings by upgrading accessibility, aging infrastructure, electrical and mechanical equipment, and the fire alarm system.

ANACOSTIA DEPOT EXISTING SITE PLAN

Project Objectives

- Improving long-term sustainability and energy efficiency, including:
 - LED lights
 - Solar panels
 - Green roof, and
 - Sewer thermal heating exchange systems.
- Improving office space utilization, by creating modern and efficient working spaces.
- Improving compliance with current building codes throughout the site.

ANACOSTIA DEPOT PROPOSED SITE PLAN

Project Overview

Anacostia Depot Reconfiguration Construction Overview

- New aggregate/materials bins consist of 8 bins with concrete walls, concrete floors, and a metal roof

MATERIALS BINS

Key to Success

Key to Success

- Strong experience with **developing and delivering complex construction and renovation projects (especially multiphase and/or in occupied spaces)**
- Ability to **dedicate a team** to enhance WSSC Water's delivery process and procedures
- Ability to incorporate the **WSSC Water Strategic Plan in all aspects of the project delivery process**

Key to Success

- Attend pre-bid meeting / site visit (mandatory)
- Understanding of project scope and planning
- Assemble and/or join an experienced project team
- Phased construction strategy
- Budget /cost / schedule controls
- Proactive stakeholder communication
- Regulatory compliance

Contract Compliance

Contract Compliance

- Submit monthly invoices on time.
- Address contract items in a reasonable time as stated in contract.
- The work must conform to the contract documents and specifications provided by WSSC Water.
- Assure the project is completed within the specified time.
- Assure approved materials are installed on the project.
- Assure quality standards are met on all activities.
- The Contractor shall provide a dedicated Project Manager and Superintendent, who shall be at the jobsite daily.
