In infrastructure assets maintained on behalf of our customers

Sewer Rehabilitation Program Overview

- Strategically replacing and rehabilitating aging infrastructure to enhance service and reliability to customers
- Replacing and repairing aging pipes and manholes as part of our comprehensive sewer rehabilitation program
- Correcting structural deficiencies in sewer mains that may result from soil settlement, root penetration or corrosion.
 - These often contribute to sanitary sewer overflows and backups into homes
- Protecting the environment for future generations

Project Overview

- Approximately 2.8 miles of sewer pipes and 78 manholes to be rehabilitated
- Sewer pipes and manholes rehabilitated using primarily trenchless methods
- Completed projects will extend the life of sewer pipes by at least 50 years

The Following Photos: Examples of manholes in the right of way.

FOREST HEIGHTS SEWER MAIN REHABILITATION PRINCE GEORGE'S COUNTY, MARYLAND

PROJECT NO. CRCICNCKLRMH7707A24

— Sewer Main Rehabilitation Area

Sewer Rehabilitation Methods

- **Sewer Rehabilitation**
 - Lining
 - Grouting
 - Open-cut
- **Manhole Rehabilitation**
 - Frame and Cover
 - Replacement/Adjustment
 - Lining

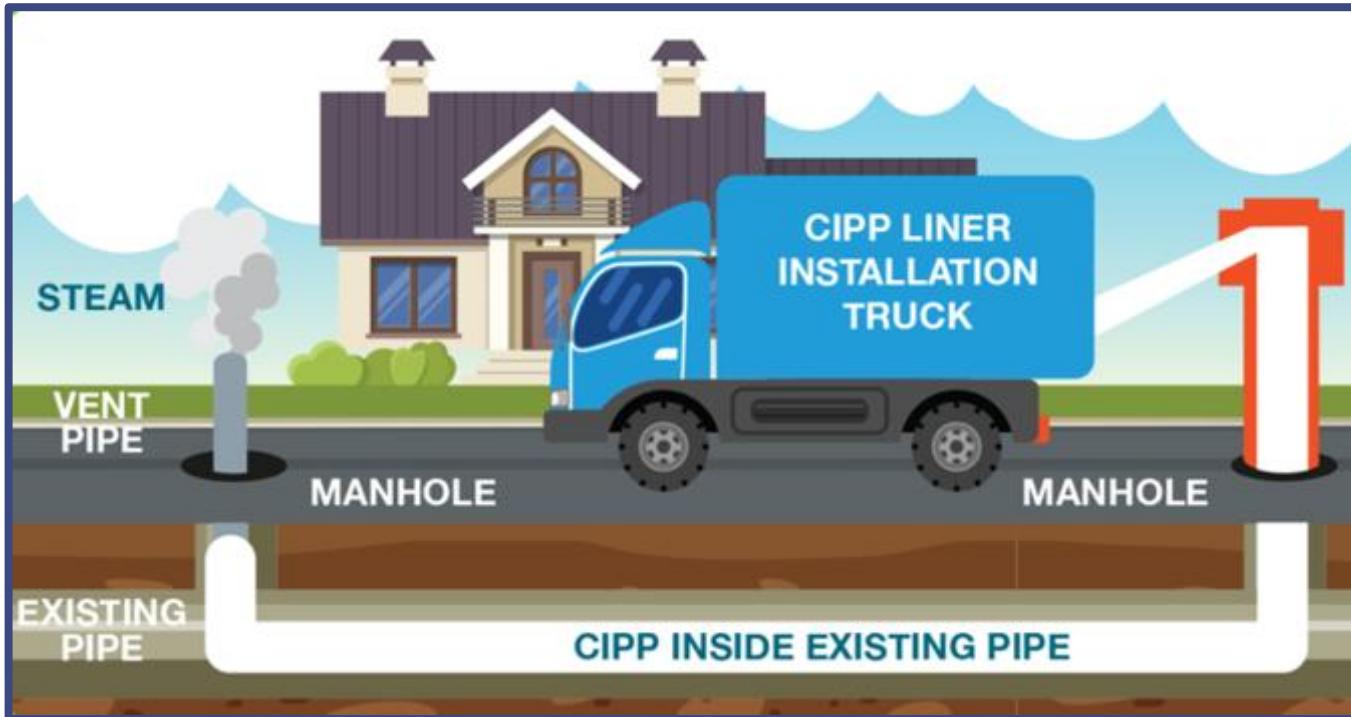

Sewer Rehabilitation Method: Open-cut

- Open-cut construction method, which involves cutting and excavating a section of the pavement
- This construction method does create noise and dust
- Construction area will be cleaned up at the end of each workday.

Sewer Rehabilitation Method: Pipe Lining

Manhole Rehabilitation

Before

After

Estimated Construction Schedule

February 2026* → August 2027*

Anticipated Rehabilitation Start Estimated Rehabilitation Completion

This diagram illustrates a timeline for rehabilitation. It features two main text blocks: 'Anticipated Rehabilitation Start' on the left and 'Estimated Rehabilitation Completion' on the right. A thick, dark blue horizontal arrow points from the start date to the completion date, indicating the duration of the process. The text is presented in a large, bold, sans-serif font.

**Construction schedule is estimated and weather dependent*

A photograph showing the backs of two construction workers. They are wearing bright yellow-green high-visibility vests with the WSSC Water logo and the slogan "DELIVERING THE ESSENTIAL". They are also wearing hard hats. They are looking towards a construction site where a building is being demolished or modified, with debris and dust visible.

What to Expect During Construction

- Anticipated work schedule: 9:00 a.m. to 3:30 p.m., Monday-Friday
 - Conditions at some locations may require different work hours
 - Residents will be notified at least two days prior to construction activity changes
- Construction activities may include:
 - Marking locations of utilities
 - Field inspections
 - Rehabilitation of sewer mains, manholes and laterals
 - Pavement restoration where digging is necessary
- WSSC Water coordinates with local and state agencies, as well as other utilities for all planned work to avoid potential conflict and minimize disturbances to neighborhoods

Traffic Impacts

- Certain construction activities may require temporary changes to traffic patterns
 - Traffic will be managed to minimize community disruptions
- Access will be maintained to homes during construction
 - Access into homes is **NOT** required
 - Access onto private property is generally **NOT** required
- Parking restrictions
 - WSSC Water will provide 48-hour advance notice (denoted by “No Parking” signs) before any parking restrictions
 - Any vehicles not removed from the designated area will be towed to a nearby street at no cost to owner
- Final restoration of sidewalks, roadways and landscaping will take place within 90 days of construction completion

Signage and Restoration

- Construction signs with contact persons placed throughout project area
- Projects completed during winter months are permanently paved and restored to their original state or better the following spring

Project Summary

- **Overview:** Existing sewer mains are near the end of their useful lives
- **Replacements:** WSSC Water is replacing the sewer mains and laterals up to the property line
- **Service:** WSSC Water will minimize service disruptions during construction
- **Coordination:** WSSC Water will coordinate work activities with property owners in the project area
- **Restoration:** WSSC Water will restore all areas impacted by construction activities at the end of the project
- **Objective:** WSSC Water's goal is to provide a reliable wastewater system to customers

Helping Our Neighbors: Water Bill Assistance

Promise.

Sign up for an affordable, flexible and interest-free payment plan. **Customers with a past-due balance of \$50 or more are eligible.**

CUSTOMER ASSISTANCE PROGRAM (CAP)

CAP assists approved residential customers by **waiving fixed fees**, providing **free annual leak investigations** and **much more**.

Eligible customers can access the Water Fund multiple times, **up to \$500 per year**.

PipeER⁺

Provides a loan **up to \$10,000** to finance the repair, replacement or diagnostics of sewer or water on-property service line. The WSSC Federal Credit Union administers PipeER.

Customer Advocate

- The Customer Advocate provides a support interface between both commercial and residential customers, WSSC Water employees, public officials, county agencies, HOAs/civics and other key external stakeholders with the goal of providing exceptional customer service.
- Advocates are responsible for educating WSSC Water's external customers on a variety of topics including financial assistance, water conservation and other important commission initiatives.
- They also coordinate "on the scene" customer support during emergency events.
